Said real property is hereinafter referred to as "Buyer's Ranchette".

2. Buyer's ranchette is part of a larger tract of real property which was formerly owned and operated by Teton West Corporation and its predecessors in interest, as a single farming unit, the entirety of which is described as the following real property situate in the County of Teton, State of Idaho, to-wit:

Township 5 North, Range 45 East of the Boise Meridian:

Section 2: East 1/2, less the West 33 1/2 rods of the Southwest 1/4 Northeast 1/4.

Section 1: All

Township 5 North, Range 46 East of the Boise Meridian:

Section 6: All, less a tract in the Southeast 1/4 Southwest 1/4 containing a gravel pit and described as:

Beginning at a point 1935.0 feet East and 66.0 feet North from the Southwest corner of Section 6, Township 6 North, Range 46 East, Boise Meridian, thence North 89° 39' East, along the Northerly right-of-way line of an existing county road for a distance of 700.0 feet to a point; thence North 0° 02' East, 800.0 feet to a point; thence North 89° 38' West 600.0 feet to a point; thence South 45° 12'30" West, 141.0 feet to a point; thence South 0° 03' West, 708.8 feet, more or less, to the point of beginning.

Also: Beginning at a point 66 feet North and 1035 feet East of the Southwest Corner of said Section 6, Township 5 North, Range 46 East, Boise Meridian, Teton County, Idaho, running thence North 200 foot; thence North 65° East 1000 feet, more or less, to the West line of the Idaho State gravel pit; thence South 600 feet to the County road right of way; thence West 900 feet to the point of beginning.

Section 5: South 1/2 Northwest 1/4; Northwest 1/4 Southwest 1/4; North 1/2 Southwest 1/4 Southwest 1/4, North 370 feet of the Northeast 1/4 Southwest 1/4.

2 - WATER AND CONVEYANCE RIGHTS AGREEMENT

Said larger tract of land is hereinafter referred to as the "Farm".

3. The Farm, or portions thereof, was historically irrigated with water diverted and applied pursuant to certain water rights appropriated under the laws of the State of Idaho, and which were appurtenant to the Farm or some portion thereof, including that portion now referred to as Buyer's Ranchette. Teton West Corporation divided the Farm into relatively smaller parcels, such as Buyer's Ranchette, and has sold such smaller parcels. In order to provide for the irrigation of each of such smaller parcels, including Buyer's Ranchette, by means of an existing irrigation water diversion and delivery system, Teton West Corporation caused to be legally organized under the laws of the State of Idaho an entity know as "Teton West Irrigation Company, Inc.", the Seller herein, to hold all the water rights appurtenant to the Farm, to own and operate the existing diversion and delivery system, including all wells, pumps, mainlines, easements, ditches and other facilities and structures use in connection therewith, and to manage the distribution of water among the several smaller parcels of land, or ranchettes, which were once part of the farm, for the proper irrigation of the irrigable portions of each. After the formation of Seller, stock was issued to the owners of most of the ranchettes which were once a part of the Farm. However, most of the land is still being operated as a farm pending the development of the ranchettes. During this transition time, the former farm manager of Teton West Corporation has entered into individual operation agreements with many of the owners of such Ranchettes, and the water diversion and delivery system has continued to be operated by said farm manager as best said farm manager has been able to do.

3 - WATER AND CONVEYANCE RIGHTS AGREEMENT

so as to properly operate the Farm, and where possible, to provide irrigation water for the owners of any of the ranchettes who may desire it independantly of the operation of the Farm. So long as this practice continues, the parties understand and agree that the first priority of said farm manager shall be the proper irrigation and operation of the remaining portion of the Farm which is being operated as such, and water shall be delivered to and for use upon Buyer's Ranchette as said farm manager is best able to do in his sole and exclusive discretion, and subject to the remaining provisions of this agreement. During this transition period, Buyer shall be charged, and hereby agrees to pay to Seller, a proportionate share of operation and maintenance costs of the Farm irrigation water diversion and delivery system based on the number of acres of Buyer's Ranchette which are irrigated, compared to the total number of acres irrigated within said system.

4. Seller now holds all necessary easements for the location, operation, maintenance, repair, replacement or inspection of pumps, electrical panels, buried mainlines, or other facilities or structures used in connection with the diversion and delivery of water for irrigation of the Farm and each individual ranchette, including Buyer's Ranchette. All water rights presently appurtenant to most of the ranchettes and former portions of the Farm, which are to become part of the service area for Seller, are now owned and held by Seller, except for the water rights appurtenant to Buyer's Ranchette. Buyer agrees to convey by Quitclaim Deed all water rights appurtenant to Buyer's Ranchette in exchange for 15 shares of stock in Seller. Seller also agrees to complete any required transfer of water rights in accordance with applicable Idaho State law. Buyer hereby consents to any such transfer of water rights and

4 - WATER AND CONVEYANCE RIGHTS AGREEMENT

123453

further agrees to cooperate in every appropriate way in the accomplishment of the objectives of the Seller for the benefit of all stockholders.

5. A certificate for 15 shares of the common capital stock of Seller has been issued to Buyer and shall represent an undivided proportionate share of Seller's irrigation water right as well as an undivided proportionate interest in Seller's water diversion and delivery system for the benefit of Buyer's Ranchette. Seller shall provide for a point of delivery on the buried mainline for Buyer's Ranchette, at which point of delivery, Buyer shall have the right to install or cause to be installed, at Buyer's own proper cost and expense, and subject to Seller's approval as provided herein, an appropriate connecting device or structure to permit connection of Buyer's sprinkler line, ditch or other equipment or facilities for the irrigation by Buyer of 15 acres of Buyer's Ranchette. Upon request of Buyer, and as soon as practicable thereafter, Seller shall cause a survey to be performed, and the appropriate legal description for Buyer's point of delivery and connection and any easement or right of way required in connection therewith to be prepared. Seller shall also cause an appropriate grant of easement containing such description to be executed, delivered and recorded. Such survey and preparation of the legal description, as well as preparation and recording of appropriate documents, shall be done at Seller's own proper cost and expense. Prior to installing any devices or structures pursuant hereto, Buyer shall first submit to Seller a description of Buyer's proposed connecting device or structure, as well as the proposed time for installation. Buyer shall not proceed with such installation without the prior written approval of Seller, which shall not be unreasonably withheld.

6. The prevailing party in any dispute arising out of this agreement or any provision hereof, shall, in addition to any other relief awarded, be entitled to attorney fees and costs incurred in connection therewith.

7. The provisions of this agreement shall be construed in accordance with the laws of the State of Idaho.

8. The provisions hereof shall inure to the benefit of and bind the heirs, personal representatives, assigns and successors in interest of the parties hereto.

IN WITNESS WHEREOF, we have hereunto set our hands and seals the day and year first above written.

RE: Change of Ownership for Water Right No(s). 22-52F, 22-286F & 22-668F

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right(s) to you. The department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Also, please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Jonie Barg
