

MEMORANDUM

TO: Water Right Permit File # 22-14103

FROM: Darla Block

DATE: February 15, 2017

SUBJECT: Address Correction

Today I received a phone call from William Graham (permit holder) regarding the address being used by the department for him. The permit holder told me that the State and Zip Code portion of his address is incorrect on the approved permit. He informed me that the State should be IL, and the Zip Code should be 60043.

Upon review of the application for permit that was filed, it was apparent to me that the department had made a mistake in the address on the Permit to Appropriate Water.

Today I corrected the permit holders' mailing address to show these corrections.
