State of Idaho
Department of Water Resources
Amendment of Permit
NO. 63-33207

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **October 01, 2018**.
2. Subject to all prior water rights.
3. The place of industrial use authorized by this approval includes land upon which wastewater may be applied for irrigation purposes to satisfy water quality requirements. Water diverted under this approval shall not be used for irrigation unless the water is first used in the industrial facility as authorized by this water right.
4. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
5. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
6. This right does not grant any right-of-way or easement across the land of another.
7. Industrial use is for a meat processing and packing facility.
8. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
9. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
10. Failure of the right holder to comply with any condition of approval is cause for the Director to cancel this permit.
11. The right holder shall install or construct a straight length of conduit or ditch suitable for installation of a device for measuring the entire flow of water being diverted in connection with this right. If the right holder uses conduit, the straight length of conduit shall be at least fifteen times the diameter of the conduit and shall be above ground or otherwise easily accessible.
12. Diversion and use of water with a temperature greater than 85 degrees Fahrenheit is not authorized under this right.
13. The right holder shall install a measuring device acceptable to the Department at the points of diversion authorized under this right. The measuring device shall be capable of displaying diversion flow rate and totalized volume measurement. The right holder shall record the flow rate and volume measurements monthly for any calendar year in which water is diverted and used in connection with this right until notified by the Department. The records shall be made available to the Department upon request.
14. One point of diversion (well) authorized for this right shall include a measuring device or other suitable method to allow measurement of the static water level in the well. Water level measurements shall be made monthly throughout the year from the beginning of the diversion and use of water in connection with this right until notified by the Department. The records shall be made available to the Department upon request.

State of Idaho
Department of Water Resources
Amendment of Permit
NO. 63-33207

15. Proof of application of water to beneficial use shall be submitted no sooner than October 1, 2017, and no later than October 1, 2018. A report with no less than 4 years of diversion measurement and aquifer level water monitoring data shall be submitted in connection with filing proof of beneficial use. Submittal of a proof of beneficial use statement without the required report will not be accepted by the Department and may result in cancellation of the permit.
16. If the Department determines, based on credible evidence, measurement reports, area data, or otherwise, there is a substantial likelihood that diversion and use of groundwater under this right is causing material injury to any senior water right(s), the Department may issue an order to the right holder to show cause why existing diversions should not be reduced under the permit, forego additional diversions, or provide adequate mitigation to remedy any such material injury. Any senior water user alleging material injury may petition the Department to commence a show cause hearing, and the Department shall conduct a hearing.
17. Use of water under this permit shall not exceed an annual diversion volume of 700 acre-feet.

This amendment of permit is issued pursuant to the provisions of Section 42-211, Idaho Code.

Signed this 9th day of February, 2017.

RE: Permit No.63-33207

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-334-2190.

Sincerely,

A handwritten signature in black ink that reads "Rachel Sommer". The signature is written in a cursive, flowing style.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Permits 63-32680, 63-33207, 63-33296, and 63-34038File

FROM: Angie Grimm

DATE: January 20, 2017

RE: Publication and Land Application of Industrial Wastewater/Other Conditions

The permit holder filed four applications to amend the permits referenced above on September 7, 2016. The publication for all four applications mistakenly indicated the applications were filed on August 7, 2016. Considering comment letters were sent to previous protestants, no concerns were raised by the public, and the date the amendment was filed has no implications on priority date or use, regional management determined it is not necessary to re-advertise the applications. The original publications fulfilled the intent of, if not the letter of, the statute.

The permit holder has filed a brand new permit application, 63-34202, which is being processed simultaneously with these permit amendment applications. Information submitted for that filing, specifically a letter received from JR Simplot Company dated 9/6/16, indicates it is the permit holder's intent to land apply industrial wastewater diverted under permits 63-33207 and 63-34038. Based on this information, conditions related to land application were added to all four permits. Amendment applications for permits 63-32680 and 63-33296 propose irrigation use within the same permissible place of use (PPU) as 63-34038, which authorizes irrigation and industrial use. A combined use condition will be placed on these three rights limiting the total irrigation use within the common PPU. The condition language will be modified to address the fact that the combined limitation does not include land application irrigation use of industrial wastewater that may occur under 63-34038. Conditions WD8 (use water in industrial facility before land application for irrigation) and 106 (comply with IDEQ and/or IDA requirements) will be added to permits 63-34038 and 63-33207.

Additionally, standard condition 004 (right doesn't not grant access or easement) will be added to 63-34038 considering portions of the PPU are not owned by the permit holder.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

TRANSFER NO. 80626
CITY OF BOISE, 150 N CAPITAL BLVD PO BOX 500, BOISE, ID 83701; has filed Application No. 80626 for changes to the following water rights within ADA County(s): Right No(s) 63-12461, 63-12470, 63-3013, 63-3014, 63-7005B, 63-7042B, 63-7047, 63-7053, 63-7055A, 63-7055C, 63-7055D, 63-7064A, 63-7064B, 63-7078B, 63-7755B, 63-8130B, 63-8435, 63-9243, 63-9359; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. The City of Boise proposes to change the place of use of their 19 water rights so that each water right has the same permissible place of use. Each of the 19 water rights share 12 wells as points of diversion. The place of use is at Twenty-Mile South Farm 15 kilometers southeast of Kuna, ID south of Poen Rd between Cloverdale Rd and Cole Rd.

✓ OK RN 1/4/17

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

TRANSFER NO. 80941
INDEPENDENT SCHOOL DISTRICT OF BOISE CITY, 8169 W VICTORY RD, BOISE, ID 83709; has filed Application No. 80941 for changes to the following water rights within ADA County(s): Right No(s) 63-29435, 63-7195; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. The transfer application proposes to move 5 acres authorized for irrigation under water rights no. 63-7195 and 63-29435 to a new place of use. The new place of use is the Mountain View Elementary School located near the intersection of N Cole Rd and Ustick Rd Boise, Idaho. This transfer will allow the School District to irrigate at the site when surface water from Nampa Meridian Irrigation District is not available. The proposed point of diversion is a groundwater well owned by the City of Boise used to irrigate Mountain View Park.

✓ OK RN 1/4/17

PROPOSED AMENDMENT OF WATER PERMIT

CS Property Development LLC of PO BOX 27 Boise ID 83707 filed Application No. 81183 on 08/07/16 to amend water permit no. 63-32680 with a priority date of 05/22/2007 authorizing groundwater use totaling 5.22 cfs for irrigation use. The permit provides irrigation water to property located approximately 20 kilometers south of Boise, ID along S. Cole Rd. The site is south of the Kuna Mora Rd between Pleasant Valley Rd to the east and S. Cloverdale Rd to the west. The applicant proposes to amend the permit changing the place of use. The change to the permit will create an expanded place of use for the irrigation use of water. The same changes have been proposed for all the permits held by CS Property Development LLC that authorize the same use at the project site.

✓ OK RN 1/4/17

PROPOSED AMENDMENT OF WATER PERMIT

CS Property Development LLC of PO BOX 27 Boise ID 83707 filed Application No. 81186 on 08/07/16 to amend water permit no. 63-33207 with a priority date of 03/24/2010 authorizing groundwater use totaling 3.0 cfs for industrial use. The permit provides industrial water to property located approximately 20 kilometers south of Boise, ID along S. Cole Rd. The site is south of the Kuna Mora Rd between Pleasant Valley Rd to the east and S. Cloverdale Rd to the west. The applicant proposes to amend the permit changing the place of use. The change to the permit will create an expanded place of use for the industrial use of water. The same changes have been proposed for all the permits held by CS Property Development LLC that authorize the same use at the project site.

✓ OK RN 1/4/17

PROPOSED AMENDMENT OF WATER PERMIT

CS Property Development LLC of PO BOX 27 Boise ID 83707 filed Application No. 81184 on 08/07/16 to amend water permit no. 63-33296 with a priority date of 11/06/2009 authorizing groundwater use totaling 10.46 cfs for irrigation use. The permit provides irrigation water to property located approximately 20 kilometers south of Boise, ID along S. Cole Rd. The site is south of the Kuna Mora Rd between Pleasant Valley Rd to the east and S. Cloverdale Rd to the west. The applicant proposes to amend the permit changing the place of use. The change to the permit will create an expanded place of use for the irrigation use of water. The same changes have been proposed for all the permits held by CS Property Development LLC that authorize the same use at the project site.

PROPOSED AMENDMENT OF WATER PERMIT

✓ OK RN 11/17

CS Property Development LLC of PO Box 83707 filed Application No. 81185 on 08/07/16 to amend water permit no. 63-34038 with a priority date of 06/26/2015 authorizing groundwater use totaling 4.0 cfs for irrigation and industrial use. The permit provides irrigation and industrial water to property located approximately 20 kilometers south of Boise, ID along S. Cole Rd. The site is south of the Kuna Mora Rd between Pleasant Valley Rd to the east and S. Cloverdale Rd to the west. The applicant proposes to amend the permit changing the place of use for both irrigation and industrial uses. The changes to the permit will create an expanded place of use for both irrigation and industrial uses of water. The same changes have been proposed for all the permits held by CS Property Development LLC at the project site.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the right(s), proposed transfer(s), or amendment(s) please see www.idwr.idaho.gov/WaterManagement/WaterRights. Protests may be submitted based on the criteria of Idaho Code §§ 42-203A, 42-222 and 42-211. Any protest against the approval of the application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 1/2/2017. The protestant must also send a copy of the protest to the applicant.
