

January 9, 2017

Ms. Angela Grimm
Water Rights Supervisor
IDWR – Western Regional Office
2735 Airport Way
Boise, ID 83705

Re: **City of Mountain Home Water Rights
2015 and 2016 Annual Reports**

Dear Ms. Grimm:

The purpose of this document is to summarize the total amount of water diverted by the City of Mountain Home groundwater wells during both 2015 and 2016 pursuant to the Condition of Approval 12 of Transfer No. 78273 dated September 22, 2014. The City has requested that Keller Associates, Inc. submit this annual report on its behalf.

The City of Mountain Home currently operates eight potable water wells, and one irrigation well. The potable water wells are used to supply water to the potable water distribution system, which residents use for potable water and irrigation. The City uses the irrigation well as a supplement to reuse water from their wastewater treatment plant to irrigate farmland.

Keller Associates performed an analysis of available production data from all wells. The parameters evaluated are summarized in Table 1, and include:

- Irrigation season maximum week (April 1 – October 31)
- Non-irrigation season maximum week (January 1 – March 31, November 1 – December 31)
- Total water pumped during irrigation season (April 1 – October 31)
- Total water pumped during non-irrigation season (January 1 – March 31, November 1 – December 31)

Information used to complete this analysis was provided by the City of Mountain Home and is believed to be accurate; it is attached to this document.
