Ann,

We can hold the application until after the Board's meeting with the applicant's agreement. That will allow plenty of time before the beginning of the irrigation season in March to complete processing.

Subject: Jenson Water Right 74-16042 Update

Hello All,

I wanted to give you an update on getting the settlement signed. After further review, it turns out that, as a matter of procedure and formality on our end, we need to present the settlement to the Board again prior to getting it signed. The Board's next meeting January 24th. The plan would be to present it to the Board in open session that day so they can formally approve it and then we can sign it.

Please let me know if this presents any issues on your end.

Thanks,

Hello,

I am checking in with you all to determine the status of this protested matter. It has been a month since our last contact and I am wondering if you are making progress towards a resolution, have reached a protest withdrawal agreement, or feel the matter should be directed towards a formal hearing.

Please respond by the end of the week, November 18, to share your respective views of this matter. If I can be of any assistance in reaching settlement, please let me know.

Pam

Ann,

I will hold this application from further processing for 30 days to allow progress towards resolution between parties. I encourage the two parties to communicate in a timely manner. If either the applicant or the IWRB notify me that a resolution cannot be reached, a formal hearing will be scheduled to resolve the matter.

Let me know if you have any questions.

Hello Pam,

I received your letter requesting an update on the Jenson application 74-16042. The IWRB just sent a settlement proposal to Mr. Jenson for review. We would request additional time to continue to resolve this protest via settlement.
