Western Regional Office

Boise, Idaho

As per our meeting on Jan. 3, 2017, I am requesting to add the .3 of an acre of water rights No. 63-33113 and .3 on 63-33114.

As per our conversation the main aluminum water line on these lots was approximately 25 feet to the north of the water line for the lots to the east. The 4 western lots are 200 ft wide. The 4 eastern lots are 167 ft wide each.

Thank you for your consideration.
