

Protest of Application #95-17241

RECEIVED
JAN 11 2017
IDWR / NORTH

I am writing to formally protest an application by Steven Barnhart for more water usage from Careywood Creek or the spring feeding the creek.

This creek is sorely stressed by so many, including myself, with permits to use the water.

Last summer several users of this creek had no water for their livestock because the creek dried up starting with the property just below us and all the users below them.

I feel that Mr. Barnhart's request for more water would, if approved, impact all the people negatively who have permits currently, since he is the first person on the creek and his request is for a large amount of water usage.

I strongly protest Mr. Barnhart's application, and request that his application be denied.

Sincerely,

Charlotte Felts
