ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.

3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. When combined with all other rights, the leased rights shall provide not more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. Unleased portions of rights 51-2258, 51-2259, 51-2444, 51-2445, 51-7108A, 51-7108B, 51-7127A, 51-13005, 51-13006, 51-13007, 51-13008, 51-13009, 51-13011, 51-13014, 51-130259, 51-13030, 51-13031, 51-13032, 51-13033, 51-13034, 51-13035 and 51-13037 are limited to irrigation of a combined total of 3787.7 acres in a single irrigation season, a total combined diversion rate of 46.43 cfs, and a total combined annual diversion volume of 14,041.7 af.
14. The period of use for the irrigation described in this approval for water right 51-13008 may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 9/28/2007.
15. The unleased portion of water right 51-13005 is limited to the irrigation of 397.4 acres, the unleased portion of water right 51-13006 is limited to the irrigation of 365.5 acres, the unleased portion of water right 51-13011 is limited to the irrigation of 31.9 acres and the unleased portion of water right 51-13014 is limited to the irrigation of 31.9 acres within the authorized place of use in a single irrigation season.

Water right holders may use this form to petition for early termination of their Water Supply Bank Lease Contract.

Water right holders seeking an early termination of a Lease Contract must demonstrate justifiable need for the release. Water rights under Lease Contract that are eligible for early termination can be released from the Water Supply Bank if the release will not impair administration of the Water Supply Bank. **If a water right is currently rented, it cannot be considered for release until the Rental Agreement concludes.** A water right is not released from the Water Supply Bank until written release confirmation is issued by the Water Supply Bank.

Christine,

I received this lease contract release form today. Do you need the signed original or is the attached copy sufficient for IDWR?

The release is only for water rights 51-13005, 51-13006, 51-13011 and 51-13014. The other water rights that are currently on this farm that have a lease contract will not be affected by the water bank changes to 51-13005, 51-13006, 51-13011 and 51-13014.
