Application for Permit No. 65-23679

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the INDEPENDENT ENTERPRISE on 1/18/2017 and 1/25/2017. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Re: Water Right Application 65-23679 Well Drilling Fee Upgrade, and additional information needed

Dear Applicant:

Your recent water right application proposes ground water use from a well. All wells drilled in Idaho after June 30, 1987, require well drilling permits. A well might need a water right along with the drilling permit, depending on the intended use of the well.

According to the records of Idaho Department of Water Resources (IDWR), your well was drilled in 2003 under a \$75 domestic well drilling permit. A \$75 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well.

Proposed use from your well does require water right approval, and your water right application seeks that approval. The well drilling fee for a well requiring a water right is \$200 instead of \$75. Per Well Construction Standards Rules (IDAPA 37.03.09.045.05.b), IDWR must collect the unpaid balance of \$125 for a well drilled under those circumstances.

Additionally, because the use you are requesting is for commercial purposes, a brief explanation justifying your requested diversion rate is necessary for the application as well. Please submit this brief explanation with your remitted payment, or email it at your earliest convenience to the email provided below.

Please remit \$125 to upgrade your well drilling permit within the next thirty days to facilitate processing of your water right application.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Justin,

With regards to the Water Right Application 65-23679, I have made the pay request with our accounts payable to forward a check for the \$125.00 remaining for the Commercial Well and water right at the Fruitland facility. You should receive payment next week. This water is needed for this site because the asphalt plant at this site has a wet scrubber that provides dust and emission control for the operation. So this water right is essential for the proper operation of our asphalt plant at this site. Let me know if you need any more information. Thank you. Brent Sumsion

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on October 4, 2016. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Section 1-** If the application is in the name of a corporation, the names and addresses of its directors and officers shall be provided. If the application is filed by or on behalf of a partnership or joint venture, the application shall provide the names and addresses of all partners and shall designate the managing partner, if any. (7-1-93). **Brent Sumsion does not appear on the Secretary of State's filing.**
- **Section 5-** Please change the amount for commercial purposes from volume to **rate** measured in cubic feet.
- In **Section 9** you have indicated that Domestic has a point of diversion in the SW of the NE, however Domestic is not included in **Section 5** as a purpose. Please complete **Section 5** to include Domestic with the **rate and period of use.**

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at (208)334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,
