Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on September 27, 2016. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Section 3-** Please clearly indicate what the source is, ground water, well, etc.
- **Section 5-** Please provide the period of use for domestic purposes.
- **Section 9-** Place of use(s) was not provided correctly. You must indicate the location of each proposed use listed in Section 5 using the appropriate symbol for each use.
- **Section 11-** Please provide answers for this section. If you own the land at the POD and POU please indicate that.
- **Section 12-** Comment section is incomplete, please complete.
- **Section 13-** Period of Time to complete the project works and application of water to the proposed use was not provided correctly. Please complete section 13 with the number of years (1 to 5) that you require to complete the development of water for the proposed used.
- **Section 14-** the map must clearly identify the proposed point of diversion and place of use. You must include an 8½" x 11" map that clearly identifies the proposed point of diversion, place of use, section #, township, and range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred or you may use the mapping tool found on our website at <http://maps.idwr.idaho.gov/map/>. To use the tool click on the "Change layers" button at the top of the screen, select the background drop down menu and add the 2011 NAIP background. Then click on the "Locate" button to find the location of the proposed project.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at (208)334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,

Western Region Water Rights Staff

Patrick,

Hello! I see it's your office day. I just got this email from a customer that needs help completing her application for permit. There doesn't appear to be a WR number yet, but I did find that this application was receipted in western under W044662—so I assume that the deficiency letter came out of your office. I wondered if you could help Angie figure things out. Either that, could you send me a copy of the application and deficiency letter so I can make sure I address all the issues. Let me know, thanks.

Cherie

Subject: water rights application

I have an application for water rights that I submitted but it was returned needing more information. I am struggling to figure out how to fill in Sec. 9. Description of use -
The proposed use is Domestic to be split between two households. How do I figure out what to put in the blanks. Its say us D for Domestic but I don't understand where? There is a chart with TWP RGE SEC etc. Then total number of acres to be irrigated which is zero.

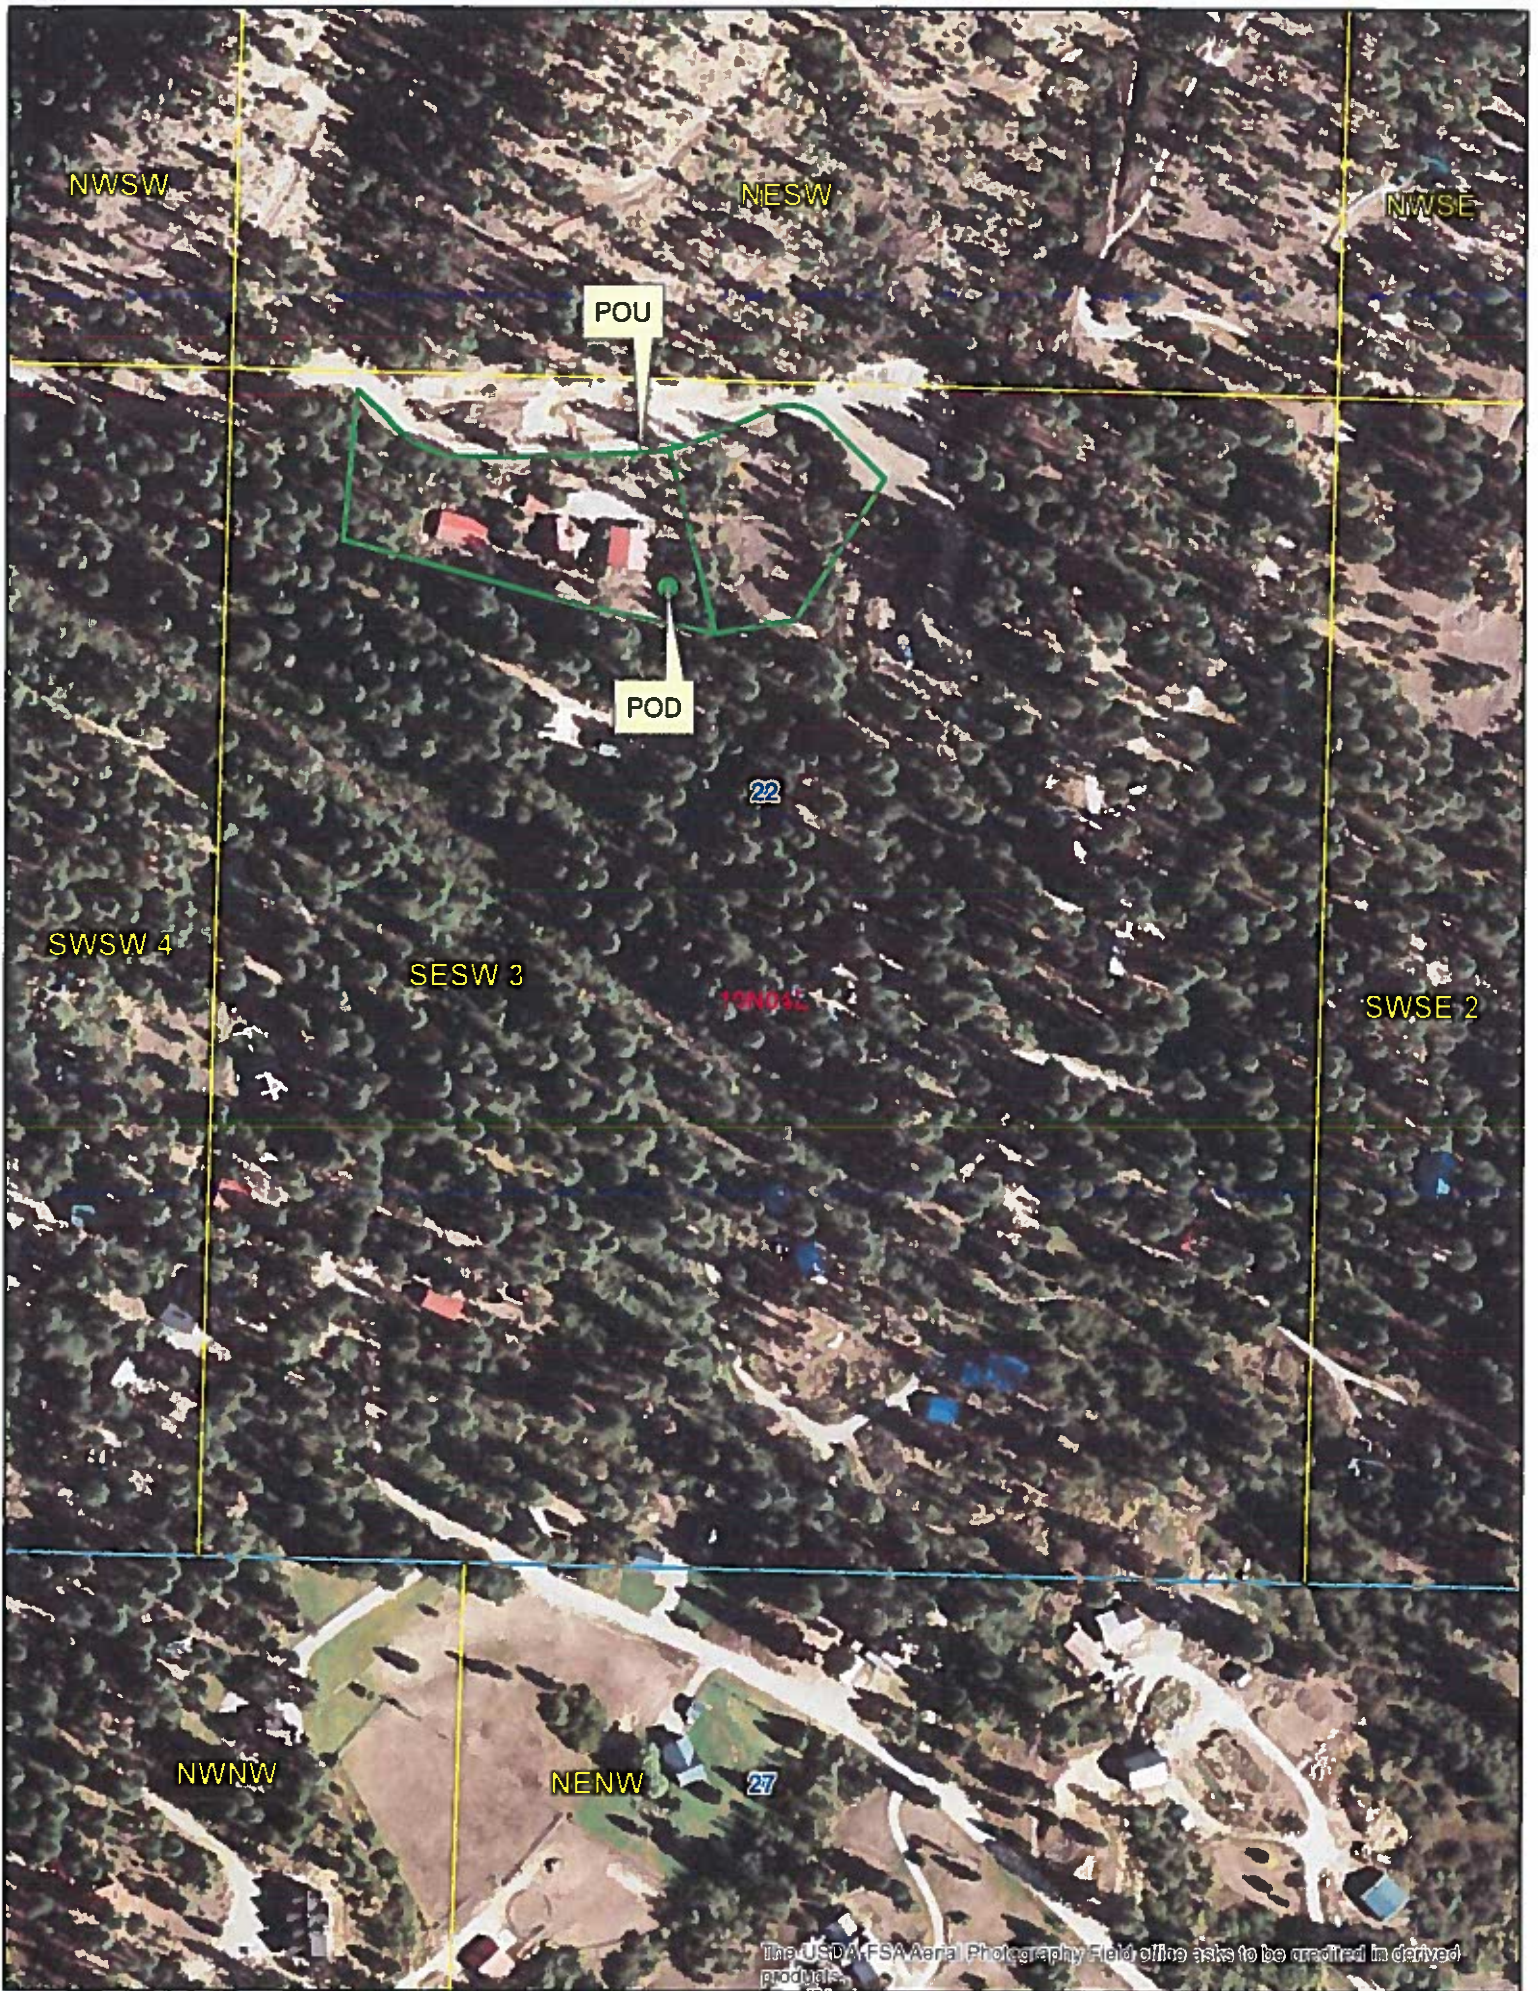

I have parcel numbers for both but only know TWP RGE SEC for one lot since it was given to me by well driller.

Well is locate on parcel RP054020000150 and to be shared with parcel RP054020000140

Thank you for any help you can provide.
Angie Denny

8. The Driller hereby accepts the terms and conditions of the Start Card/Permit.

Driller's Signature: Andy Jones Date: 6/7/16

9. The Well Owner affirms to have read this Start Card/Permit, validates its accuracy and accepts the conditions.

Owner's Signature: Denny Date: JUNE 7 2016

CONDITIONS FOR USE OF START CARD:

1. This permit authorizes the construction or modification of one domestic well for a single-family residence. No additional residences, businesses, or dwellings may be connected to this well without a valid water right. Limited to irrigation of 1/2 acre lawn/garden and 13,000 gpd.

2. This form must be complete, including the prepaid tag number and signature of the driller. The owner should sign the start card after reviewing these conditions. Mailing must take place no less than 72 hours prior to construction (Dept. address below), hand delivered or faxed to the Dept. prior to commencing construction. The start construction date shall be no more than 10 days after, the Department receives the permit. An incomplete form will not be considered a valid permit to drill.

3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare. All wells must be drilled a minimum distance of 100' from a drain field. Domestic wells must be drilled a minimum of 50' from a septic tank.

4. Only Well Drillers licensed in Idaho may use a Start Card for construction of a well. The driller shall maintain a copy of the Start Card and the well I.D tag at the drilling site during construction.

5. This drilling permit does not authorize trespass on the land of another party.

6. This drilling permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.

7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

8. If a bottom hole temperature of 85 F. or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.

9. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Digline" Number for your area is 1-800-342-1585.

10. The stainless steel I. D. tag must be welded to the well casing upon completing the well and must remain permanently attached above ground level for the life of the well. Other tags may be added following a repair or modification of the well. The well driller is responsible for permanently attaching the I.D. tag to the casing upon completing the well. The well tag shall be attached by welding at least 3 sides or using Four (4) stainless steel, closed-end pop rivets.

11. A start card is not valid for drilling in Areas of Drilling Concern, Critical Groundwater Areas, Groundwater Management Areas or Areas Identified by the Department as Contaminated.

12. The possession of a well tag does not authorize construction of a well.

13. Any well being replaced by a new well, shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.

Effective Feb. 1, 2005

Application for Permit No. 65-23678

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the IDAHO WORLD on 1/18/2017 and 1/25/2017. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Rachel Neely

Hi Angie,

Just wanted to follow up with you in regards to your application as I have not heard back since my last email. There is just one final amendment that is needed to the table in section 9 of the application. Please change where you have "GL3" written in to "2" to represent the amount of acreage you intend to irrigate so that it is transparent where the irrigation will be taking place.

Please let me know if you have any questions.

Thanks and regards,

Hello Justin here is the amended application. Please look it over to ensure we filled it in correctly. I did amend the timeframe in sec. 13. I am not sure what this does for us but I imagine that 3 years is a more beneficial timeframe to be more settled in. If I need to change something or update something I forgot please let me know.
Thank you for your time and help with this.

If you anticipate at all irrigating more than ½ an acre it is much easier to add that to your permit now rather than changing it down the road. Changing it later would require submitting a new application. Also, keep in mind that you can request the irrigation use for this permit and should you chose not to develop it over the course of your proposed beneficial use period (which can be changed to 5 yrs instead of 1yr) (section13) then it will simply be removed from the water right at the time of licensing. Likewise, you would only have to pay the well upgrade fee to cover irrigation use at the time of licensing should you develop irrigation as a beneficial use. If not, no additional fees would be required.

Basically, it is easier to request the additional beneficial use now than later with no additional fee. Then if you don't develop it by the end of your beneficial use period of 1-5 yrs (whatever time frame you choose) it will simply be stricken from the water right.

To request irrigation on your permit you would add it as a purpose of use in section 5. The standard rate for irrigation use is 0.03 cfs/ac. It looks like the two lots are roughly 2.5 acres combined. Subtracting the area that the houses/buildings cover it could be

safe to request irrigation for 2 acres. 2 acres at 0.03cfs/ac = **0.06 cfs** for irrigation. Total quantity to be appropriated= 0.08cfs for domestic +0.06cfs for irrigation =**0.14cfs**.

Should you chose to make this change to your application, be sure to amend sections 5, 6a, and 9 to include the added use of irrigation. Also, section 13 can be amended if you would like to extend the time required for completion of works to develop beneficial use.

Let me know if you have any further questions or concerns in regards to this matter.

Subject: Re: Application for permit to appropriate water

Ok one more question pertaining to the 1/2 acre irrigation. We don't plan to irrigate any more than we have to. If this changes down the road how hard is it to amend that portion and what are the steps in that process. Or is it easier to do it now even though we don't plan to use it?

Thanks Angie

Good Morning Angie and Scott,

It is no problem at all to help you through the application process, that is what I am here for. Attached you will find a copy of your Application for Permit. If you would like to request the max allowable amount of 0.08 cfs please amend section 5, complete section 6a to reflect this, and scan/email back to me at your earliest convenience. Your priority date will be reflected as the date that I receive the amended application in return from you.

Please let me know if you have any questions or concerns in regards to this matter.

Subject: Re: Application for permit to appropriate water

Thank you so much for getting back with us. As a consumer these applications are confusing and hard to navigate. So we really appreciate any input and guidance.

I am sure the request for use between two household in on the rare side and again because of my lack of knowledge I requested what I thought our allowance was. We would definitely like to amend the

application to reflect the maximum allowed for two households. 0.08 cfs. Now, how do we go about that? Can you amend and we sign to the amendment somehow? Or do we need to have you send the application back and us amend and return?

As for the acreage limitations. We do not plan to irrigate more than a 1/2 acre. Hoping to minimize and only irrigate around the houses for a buffer for fire break.

Let us know what we need to do to amend the application for the above and we will get it done.

Thanks again for your help on this, Angie & Scott

Good Afternoon Mr. and Mrs. Denny,

Thank you for submitting your application for permit, I am currently reviewing your submission and have just a few things that I wanted to make you aware of and clarify with you.

In your application for permit you have requested 0.04 cfs for Domestic use. However, because you state that the domestic use will be for 2 homes you could ask for up to 0.08 cfs for 2 households. Do note that if you choose to amend and increase the rate, it would advance your priority date from Oct. 28, 2016 to whenever we received the amended application (so December, XX, 2016). But you are most certainly allowed to request this maximum allowable rate.

Also, I did want to clarify with you as to how much acreage you plan on irrigating. Under a domestic water right you would be allowed to irrigate up to 1/2 acre. However, I do see while looking at satellite imagery that the acreage of irrigable land between the two lots is greater than 1/2 acre. If you do anticipate irrigating more than is allowed under the domestic exemption of 1/2 acre, such as 1/2 acre per house for a total of 1 acre then

an amended application would be necessary and a well upgrade fee may be necessary. If you do not plan on irrigating more than ½ an acre between the two homes then there is no need to worry, as you would still fall under domestic exemption of 13,000gpd and ½ ac lawn, etc.

Please let me know at your earliest convenience how you would like to proceed and do feel free to ask me any questions that you might have in regards to these matters.

Thanks and regards,

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on September 27, 2016. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Section 3-** Please clearly indicate what the source is, ground water, well, etc.
- **Section 5-** Please provide the period of use for domestic purposes.
- **Section 9-** Place of use(s) was not provided correctly. You must indicate the location of each proposed use listed in Section 5 using the appropriate symbol for each use.
- **Section 11-** Please provide answers for this section. If you own the land at the POD and POU please indicate that.
- **Section 12-** Comment section is incomplete, please complete.
- **Section 13-** Period of Time to complete the project works and application of water to the proposed use was not provided correctly. Please complete section 13 with the number of years (1 to 5) that you require to complete the development of water for the proposed used.
- **Section 14-** the map must clearly identify the proposed point of diversion and place of use. You must include an 8½" x 11" map that clearly identifies the proposed point of diversion, place of use, section #, township, and range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred or you may use the mapping tool found on our website at <http://maps.idwr.idaho.gov/map/>. To use the tool click on the "Change layers" button at the top of the screen, select the background drop down menu and add the 2011 NAIP background. Then click on the "Locate" button to find the location of the proposed project.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at (208)334-2190 and ask for the "office day person" if you have any questions about the necessary information.

Sincerely,

Western Region Water Rights Staff

A. ☒ New well ☐ Replace ☐ Deepen ☐ Modify Previous well #: _____ B. Proposed Casing Dia. 6 C. Proposed Maximum Depth: 4006. Construction Start Date: 6/8/23 7. Well Driller: ALL STATE Drilling Driller's Lic. No. 561

8. The Driller hereby accepts the terms and conditions of the Start Card/Permit.

Driller's Signature: Andy Jones Date: 6/7/16

9. The Well Owner affirms to have read this Start Card/Permit, validates its accuracy and accepts the conditions.

Owner's Signature: Denny Date: JUNE 7 2016

CONDITIONS FOR USE OF START CARD:

1. This permit authorizes the construction or modification of one domestic well for a single-family residence. No additional residences, businesses, or dwellings may be connected to this well without a valid water right. Limited to irrigation of 1/2 acre lawn/garden and 13,000 gpd.

2. This form must be complete, including the prepaid tag number and signature of the driller. The owner should sign the start card after reviewing these conditions. Mailing must take place no less than 72 hours prior to construction (Dept. address below), hand delivered or faxed to the Dept. prior to commencing construction. The start construction date shall be no more than 10 days after, the Department receives the permit. An incomplete form will not be considered a valid permit to drill.

3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare. All wells must be drilled a minimum distance of 100' from a drain field. Domestic wells must be drilled a minimum of 50' from a septic tank.

4. Only Well Drillers licensed in Idaho may use a Start Card for construction of a well. The driller shall maintain a copy of the Start Card and the well I.D tag at the drilling site during construction.

5. This drilling permit does not authorize trespass on the land of another party.

6. This drilling permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.

7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

8. If a bottom hole temperature of 85 F. or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.

9. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Digline" Number for your area is 1-800-342-1585.

10. The stainless steel I. D. tag must be welded to the well casing upon completing the well and must remain permanently attached above ground level for the life of the well. Other tags may be added following a repair or modification of the well. The well driller is responsible for permanently attaching the I.D. tag to the casing upon completing the well. The well tag shall be attached by welding at least 3 sides or using Four (4) stainless steel, closed-end pop rivets.

11. A start card is not valid for drilling in Areas of Drilling Concern, Critical Groundwater Areas, Groundwater Management Areas or Areas Identified by the Department as Contaminated.

12. The possession of a well tag does not authorize construction of a well.

13. Any well being replaced by a new well, shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.

Effective Feb. 1, 2005
