2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on December 16, 2016.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2016 to December 31, 2017. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

IN WITNESS WHEREOF, the parties have executed this Contract on the date following their respective signatures.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 02.

Dear Lessor:

Water right **2-2** was leased into the Water Supply Bank (Bank) as of December 16, 2016, in accordance with the enclosed executed lease contract. **Your water right, as described on the lease contract, is considered leased into the Bank and should remain unused until it is formally released from the Bank.** More information and further restrictions placed on your water right while leased can be found in conditions of acceptance of the lease contract. Jean,

Good morning! I have no comments specific to right 2-2 or this lease proposal from the local region perspective. However, Mrs. Siegwein's name sounds familiar to me. She recently withdrew a transfer application for right 2-1. The application proposed moving the POD to (likely) the same POD as 2-2 (same QQ). The application was withdrawn though due to Mrs. Siegwein's concern of possible forfeiture for 2-1. This likely has no bearing on 2-2 or your lease, but I thought I'd mention it incase it's relevant. Other than that, nothing comes to mind on right 2-2 or the applicant. As always, thank you for the opportunity to comment.

13	Narrative: The applicant wishes to place 8 acres of this right in the Bank. Virginia Siegwein, current water right owner, signed the application. This right was decreed in 2010. On the application, the lease dates were listed as 2017 to 2018. An email from Chris Bromley, attorney for the water right owner, clarified that the lease should end in 2017. After reviewing satellite imagery, it was determined this right needed to be in the Bank in 2016 to avoid forfeiture. The Department received a phone call from Chris Bromley, who agreed to modify the lease dates to January 1, 2016 to December 31, 2017. There are no overlapping rights with the POU or POD. This water right is currently within WD 02.

Chris,

I'm going to add this email to the lease application and note that your client would like the water right released from the Bank at the end of 2017 so that it will be made available to them in 2018. If it is accepted for lease, the lease contract will be drafted with an end date of 12/31/2017.

Subject: Siegwein WSB Application, Water Right No. 2-2

Remington,

I submitted a WSB application the other day on behalf of Virginia Siegwein, for a portion of water right no. 2-2. The intent of the application was to place the right in the WSB for the 2017 irrigation season, then have the right available to Virginia for the 2018 irrigation season. When I was looking yesterday at the way it's been preliminarily entered into the system, the end date is 12/31/2018. What can be done to have the end date be the start of the 2018 irrigation season? When we filled out the application, the choice of 2018 as the end date was to reflect use of water beginning with the 2018 irrigation season. What can I do to ensure that Virginia can use the portion of 2-2 in the 2018 irrigation season?

I'm sending this as an email because my phone availability to going to be limited today. If we can do this by email, that'd be preferable. I can try and get cell coverage if you think a phone call would be easiest.

Thanks!

Chris
