Jean,

Good morning! Attached is a WSB attachment form we received within Transfer No. 81278 related to the rights proposed for lease. The transfer proposes creating a permissible place of use for land within which the rights are currently used (surrounding current POU it looks like). Patrick Kelly is assigned to process this transfer application and I've cc'd him on this email accordingly. I'm guessing leasing portions of these rights into the bank again will not affect transfer processing, but Patrick will contact WSB staff when he begins working on this transfer to confirm and coordinate efforts. I thought I should mention this transfer in case you are not aware of its existence. The cover letter submitted with the transfer application stated the WSB lease acres would be reduced AFTER the transfer was processed, but it appears the applicant decided to do this reduction ahead of time. Regardless, no local area concerns come to mind with the continued lease of a smaller portion of these rights. Patrick will work with WSB staff if concerns arise after detailed review during transfer processing. Thank you for the opportunity to comment. Let us know if you have any questions for us regarding the pending transfer.

Regards,
Angie

Re: Lease Applications for Murphy Flats Water Company

Dear Mr. Buyer:

Murphy Flats Land Company has purchased some addition property. The property contains one full pivot and one $\frac{3}{4}$ wiper pivot. The two pivots have been irrigated by rented water from owned by Murphy Flats Land Company. Due to this land purchase and other farm management practices changing, it is requested that the current lease contracts for water rights 2-2361, 2-2370, 2-7001, 2-10020, 57-179, 57-180B, 57-181 and 57-7152 be released by the Idaho Water Supply Bank.

It is further desired to lease 270.8 acres of irrigation water under 2-2361, 2-2370, 2-7001, 2-10020, 57-179, 57-180B, 57-181 and 57-7152 to the Idaho Water Supply Bank. New applications for the adjustment to the lease acre are attached to this letter. A breakdown of the lease amounts per water right are provided on a spreadsheet.

A transfer is being submitted to the Western IDWR Regional office to move water to the two new pivots permanently. However, it is unlikely that the transfer will be processed by the beginning of the 2017 irrigation season. The rental that covers the two pivots needs to stay active until the transfer is approved.

Please copy our office on all correspondence regarding these applications.

Sincerely,

Greg Sullivan, M.S., Engineer
