Re: Dakota Street Well

Dear Mr. Klaus:

The Idaho Department of Water Resources (Department) received a copy of a well site evaluation from Idaho Department of Environmental Quality (DEQ). The Department recognizes that some improvement activities may fall under our jurisdiction.

Construction of the new well must comply with drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules. The Department has record of Water Rights No. 98-2033, 98-2103, and 98-7825 for municipal uses in the name of City of Bonners Ferry. Those rights authorize only surface water points of diversion. In order to obtain a drilling permit for a new municipal well, The City of Bonners Ferry will need to file for and receive approval of an *Application for Permit* for the proposed use. The Department encourages the city to submit an application as soon as possible to ensure that processing does not delay the project.

Please contact this office if you have any questions or require assistance with the applications.

Sincerely,

Adam Frederick
Senior Water Resource Agent
