MEMORANDUM

TO: Water Right Permit File 95-16370

FROM: Daniel A. Nelson

DATE: December 23, 2016

SUBJECT: Field Examination Required

Water right permit 95-16370 was held for an in-house field examination. This permit is part of a larger system associated with water right 95-10059. A field examiner should visit the site to determine if they increased the pump size and increased the overall flow rate for the system when they added in this permit. The field exam for water right 95-10059 was licensed for the pump capacity, so if they didn't increase the capacity of the system, then this permit would need to be licensed with a condition limiting the permit when combined with 95-10059 to the capacity found in the field examination for water right 95-10059.
