APPLICATION FOR PERMIT

- Amended -

DEC 15 2016

To appropriate the public water of the State of Idaho

DEPARTMENT OF
WATER RESOURCES**AMENDED**

1. Name: VICTORIA MELTON
10 BANTA DR
SALMON ID 83467
(208) 881-3247

2. Source: UNNAMED STREAM Tributary to: LEMHI RIVER

3. Location of Point of Diversion:

- #1 UNNAMED STREAM L4 (NW1/4NW1/4) Sec. 5, Twp 21N, Rge 22E, B.M.
LEMHI County

4. Water will be used for the following purposes:

Purpose	From	To	RATE OF DIVERSION	ANNUAL VOLUME
IRRIGATION	03/15	to 11/15	0.06 CFS	
AESTHETIC STORAGE	01/01	to 12/31		2.0 AF

5. Total quantity to be appropriated is: 0.06 CFS 2.0 AF

6. Proposed diverting works:

POINT OF DIVERSION #1

- a. Type and size of devices used to divert water from the source: EXCAVATED POND; SMALL (1/2 HP) PUMP TO HOSES FOR LAWN SPRINKLING.

- b. Height of storage dam _____ feet;
Active reservoir capacity _____ acre-feet;
Total reservoir capacity _____ acre-feet;

- c. Proposed well diameter is _____ inches;
Proposed depth of well is _____ feet.

- d. Is ground water with a temperature of greater than 85F being sought?

- e. If well is already drilled, when? _____;
Drilling Firm _____;
Drilling Permit No. _____.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 year(s).

Application For Permit No. 74-16060

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the RECORDER HERALD on 1/5/2017 and 1/12/2017. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jean Hersley

This application proposes the diversion and use of water from an unnamed stream a tributary of the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The

water use proposed in this application will benefit from the subordination provision because the diversion rate 0.06 cfs and 2.2 acres will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

RE: Application for Permit: 74-16060

Dear Watermaster:

The Department of Water Resources is seeking written comment and/or recommendations from you regarding the above referenced water right application for permit. You can find copies of the application at: <http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Jean Hersley

RE: Application to Appropriate Water in the Upper Salmon River Basin 74-16060

Dear Water Right Applicant:

The Department of Water Resources' (IDWR) records show you filed an application to establish a new use of water in the upper Salmon River basin. Idaho Code § 42-203A(5) requires IDWR to determine whether each water right application satisfies all the criteria necessary for appropriating water in Idaho. One statutory criterion requires IDWR to determine the local public interest relative to the proposed water use. Idaho Code § 42-202B(3) defines the local public interest as "the interests that the people in the area directly affected by a proposed water use have in the effects of such use on the public water resource." The local public interest has many facets, including the effects of a proposed water use on aquatic habitat for fish and wildlife resources.

The upper Salmon River basin is home to stocks of chinook salmon, sockeye salmon, steelhead trout, and bull trout, all of which are listed as threatened or endangered under the Endangered Species Act (ESA). Since the early 1990s, local water users, conservation districts, and federal and state agencies have cooperated to implement conservation measures intended to protect and restore habitat for ESA-listed species in the upper Salmon River watershed. For example, at the request of local water users the Idaho Legislature directed the Idaho Water Resource Board (IWRB) to establish a minimum stream flow in the lower Lemhi River for fish passage. The minimum stream flow is maintained through a water supply bank and temporary or permanent acquisition of additional water supplies by willing buyers from willing sellers.

Pursuant to the Snake River Water Rights Agreement of 2004, Idaho has been developing a long term conservation plan for the benefit of ESA-listed species in the Lemhi River basin. Improving conditions in flow-limited river reaches and streams is a fundamental component of the Lemhi plan. In addition to IDWR, numerous state agencies, including the Office of Species Conservation, Idaho Department of Fish and Game, Idaho Department of Environmental Quality, Idaho Soil and Water Conservation Commission, and Idaho Department of Lands, have committed and continue to commit significant resources toward this objective under the following programs:

- Columbia Basin Water Transactions Program
- National Marine Fisheries Service Pacific Coastal Salmon Recovery Fund
- U. S. Fish & Wildlife Service Aquatic Species Conservation Fund
- Salmon and Clearwater River Basins Habitat Fund
- 2008 Columbia Basin Fish Accords

A myriad of habitat restoration projects are being constructed/implemented in other parts of the upper Salmon River basin. These projects have been coordinated with the local communities and water users through the Upper Salmon River Basin Watershed Program and predecessor programs, including the model watersheds. Furthermore, the Snake River Water Rights Agreement of 2004 contemplates the development of additional conservation plans for other upper Salmon River basin watersheds. Accordingly, the draft Comprehensive State

Water Plan under revision by the IWRB contains policies for the Salmon River basin that focus on the protection and restoration of instream habitat for ESA-listed species through voluntary participation in conservation programs.

Because of the ESA-listed species recovery efforts in the upper Salmon River basin, IDWR must determine on a case-by-case basis whether it is in the local public interest to authorize proposed water uses that would further deplete flow-limited stream reaches.

Pursuant to Rule 40.04.c of the Water Appropriation Rules (IDAPA 37.03.08.040.04.c), the applicant has the ultimate burden of persuasion regarding the items that must be evaluated in connection with each water right application. Before proceeding further with your application, IDWR requests you submit additional information about how your proposal invokes any local public interest concerns for ESA species recovery.

Within 30 days, please submit any additional information you believe IDWR may need to evaluate and determine the local public interest in the water you propose to divert and use. If IDWR has not received a response from you within 30 days, IDWR will assume you have no comment regarding the local public interest, and processing of your application will resume with the information currently on file. Processing will include public notice and the potential for formal protests by other interested parties. Applications that are not in the local public interest will be denied. If you wish to withdraw your application before it is processed, please notify IDWR in writing.

If you have any questions, please call me at 208-287-4951, or email me at pam.skaggs@idwr.idaho.gov.

MEMORANDUM

Date: December 20, 2016
To: Water Right File 74-16060
From: Kyle Rayworth
Re: Application Review

Applicant

According to available Lemhi County tax lot information, the POU is on a property owned by Lawrence O Cragwick. Owner verified per phone conversation that she is the current owner of the property.

Source & POD

The source of the water will be an unnamed stream which is a tributary to the Lemhi River. It is within a Wild and Scenic area and subject to those processing steps.

A headgate for the unnamed stream allows for the flow of water into an onstream excavated pond, where it is used for aesthetic storage and flows back into the unnamed stream. The proposed irrigation will be a small 1/2 HP pump just above the pond for delivery of water to sprinklers.

POD is located in Lot 4 of No St Charles Estates Subdivision. I created the POD shape based on existing spatial data point 892413.

Water Use

The application proposes the use of surface water for irrigation of the property. Domestic well for internal use only.

POU

The place-of-use is approximately 2.2 acres within the applicant's approximate 2.8 acre property. The application was amended from 2.0 acres to 2.2 acres per a miscalculation on the original application discussed with the owner. As a result, the priority date was adjusted to reflect the reception of the amended application. I created the POU shape of the pond based on ArcMap.

POU/POD overlap analysis

This is an existing development which does not have a water right. I found no overlapping rights or other applications proposing irrigation use.

Conditions

The proposed use is currently located within water district 74. The permit is to be conditioned with a measuring device and watermaster control notifications.

RE: Application for Permit 74-16060 Melton – Amended Application

Dear Victoria:

I have updated the information regarding your application per our conversation. Please review the information to verify it is correct and sign the amended application on page 2. Once we receive the amended application, we can proceed to the next step. Thank you.

Please provide the requested information within 14 days. If you have any questions about the information requested above, please contact me directly for clarification. I am available by email at kyle.rayworth@idwr.idaho.gov, by phone at (208) 287-4912 or at the address above. I will be happy to clarify any of the questions. Once your application is defined clearly to meet your proposed plan of use, the application will be prepared for public notice. Concurrently you will receive an additional letter addressing Wild and Scenic concerns since you are located within the Wild and Scenic River area.

Please contact me at the State Office in Boise if I can be of assistance.

Sincerely,

Kyle Rayworth

RE: Application for Permit 74-16060 Melton – Amended Application

Dear Victoria:

This letter is a follow up to the October 18, 2016 letter sent regarding the amendment of your original application to reflect the changes we discussed. Please provide the completed amended application within 30 days. If no response is received within that time frame, the original application, and not the amended application, will go forward. Thank you.

If you have any questions, please contact me directly by email at kyle.rayworth@idwr.idaho.gov, by phone at (208) 287-4912 or at the address above. Once I receive your amended application, or at the completion of the 30 days, the application will be prepared for public notice. Concurrently you will receive an additional letter addressing Wild and Scenic concerns since you are located within the Wild and Scenic River area.

Please contact me at the State Office in Boise if I can be of assistance.

Sincerely,

Kyle Rayworth

RE: Application for Permit 74-16060 Melton – Amended Application

Dear Victoria:

I have updated the information regarding your application per our conversation. Please review the information to verify it is correct and sign the amended application on page 2. Once we receive the amended application, we can proceed to the next step. Thank you.

Please provide the requested information within 14 days. If you have any questions about the information requested above, please contact me directly for clarification. I am available by email at kyle.rayworth@idwr.idaho.gov, by phone at (208) 287-4912 or at the address above. I will be happy to clarify any of the questions. Once your application is defined clearly to meet your proposed plan of use, the application will be prepared for public notice. Concurrently you will receive an additional letter addressing Wild and Scenic concerns since you are located within the Wild and Scenic River area.

Please contact me at the State Office in Boise if I can be of assistance.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kyle Rayworth', with a long horizontal flourish extending to the right.

RE: Application for Permit 74-16060 Melton - Additional Information Request

Dear Applicant(s):

The Department of Water Resources has received your application for permit and a water right number has been assigned. After an initial review more information is needed before moving forward with processing. Please answer the questions listed below to clarify various items on the application.

1. What is the actual source of water you propose to use for irrigation? Will there be any use of water from the pond, or will the use come solely from the flow of water above the pond? If any pumping is to come from the pond, then additional purposes for the use of water must be included to show irrigation storage and irrigation from storage.
2. Under the description of place of use, you noted the total number of acres to be irrigated to be 2.0, yet on the grid the combined total is 2.1. Upon further review, the acres listed in the NWNW quarter-quarter could justifiably be rounded up from 1.9 to 2.0, giving a total number of acres to be irrigated of 2.2. The permitted acres can be reduced at licensing, but not increased if you have defined your Place of Use (POU) too closely. I recommend you round up to 2.2 acres, but the decision is yours. Increasing the number of acres will change your priority date to the date I receive the amendment, but only days at this point.
3. Could you please confirm the depth of the pond? If the depth varies, describe varying depths. We have determined the surface area of the pond to be approximately 0.10 acres based on our research of aerial photos showing existing pond. Please note the attached map used in determining the surface area of the pond and let me know if it represents the location of the pond accurately.
4. Our most recent tax lot data shows Lawrence Cragwick as the current owner. Have you recently purchased the property?
5. The standard use dates for irrigation in this area are 3/15 – 11/15, so the dates on your application will be updated to reflect standard season.

Please provide the requested information within 14 days. If you have any questions about the information requested above, please contact me directly for clarification. I am available by email at kyle.rayworth@idwr.idaho.gov, by phone at (208) 287-4912 or at the address above. I will be happy to clarify any of the questions. Once your application is defined clearly to meet your proposed plan of use, the application will be prepared for public notice. Concurrently you will receive an additional letter addressing Wild and Scenic concerns since you are located within the Wild and Scenic River area.

Please contact me at the State Office in Boise if I can be of assistance.

Sincerely,

Kyle Rayworth
Water Rights Agent
