Re: Change in Water Right Ownership: Water Right No. 75-14853 (Split into 75-14854 and 75-14855)

Dear Water Right Holder(s):

We have received and processed a Change of Ownership for a portion of your original Water Right as referenced above. This change of ownership resulted in a split of your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, a new water right number is issued to the new owner representing their portion of the original water right. Each water right contains only the portion of the original right for each separate owner. The original water right number reflects your remaining portion of the water right, after the change of ownership. Enclosed is a copy of this water right for your records. Please refer to your water right number when corresponding with our office.

The portion of water rights 75-14854 and 75-14855 has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

A refund of \$100 has been requested and will be sent to you under separate cover from the State Controller's Office. When ownership change requests that require splits are submitted together, the Department's fee is \$100 because it is one request.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning this ownership change, or the enclosed information, please contact me at 208-287-4942.

Sincerely,

Jean Hersley

I have completed splitting a property into 3 separate parcels (A, B, and C) and would like to assign separate water rights to each of these parcels. Copies of the Quitclaim Deeds for each of these properties are included along with a survey map that identifies A, B, and C.

FYI, back on Oct 12 I requested and was granted the water rights for 75-7561 and 75-14132 (split into 75-14132 and 75-14853). I now would like to split water right 75-14853 into 3 separate water rights with the original water right number (75-14853) being retained by Parcel B and new water right numbers being assigned to Parcels A and C.

All splits to remain in the name of The Gapp Family Trust.

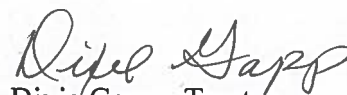

I have been advised by Cindy Yenter in the Salmon Field Office on this transaction and as per her information the cost of this request is \$200 so a check for this amount is included.

Please call or email if any further information or correction is needed.

Thank you,
