3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The ownership of this water right is governed by a settlement agreement executed by the Idaho Department of Lands and Roger G. Young dated September 2, 2009.

Re: Our July 19th Meeting on the "Denial of Application to Lease Water Right No. 2-10426 to the Water Supply Bank"

STATEMENT OF FACTS ON WATER RIGHT NO. 2-10426 WATER USAGE

I decided that the fall of 2015 would be a good time to clean up the weeds on this field and meet the "Good Stewardship" provision of my lease with the State of Idaho. The field was disked to clean up the weeds, seeded with a cover crop, and irrigated. The last irrigation was during the last week of October 2015 when the lines were used to help drain the irrigation system for winter. Most of the seed germinated in the fall and the growing cover crop stayed green till late spring of 2016.

There has been no irrigation of this field in 2016.

This field will not be irrigated while the water is in the Water Supply Bank.

13	Narrative: The applicant wishes to place the entire right in the Bank. The Department received these applications in 2015. Department was waiting for authorization from IDL, since they are co-owners of the right, before processing. In July, during the review process, it appeared the applicant irrigated the land, as a result, the Dept returned his application unprocessed. Mr. Young spoke with Cherie and said he did not irrigate any of the land appurtenant to this water right. Cherie gave Mr. Young the benefit of doubt and told him to send the application back and the Dept would accept his water right into the Bank from 1-1-15 to 12-31-19. There are no overlapping water rights. This water right is currently within WD 02.
