PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 94-8542

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form (proof) submitted for the above referenced permit.

During review of your proof statement and the permit listed above, I noticed that you stated a rate of diversion greater than the maximum diversion rate allowed under this permit. You stated on your proof that your total rate of diversion is 0.14 (cfs), however, this permit authorizes a maximum diversion rate of 0.07cfs. Diversion of water under this permit is limited to the authorized amount. I have enclosed a copy of your proof statement and this permit for your reference. You may apply for another permit to cover additional water use if needed. Application for Permit forms are available from any Department office or at the Department's website at www.idwr.idaho.gov.

A \$100.00 license examination fee was also submitted with the beneficial use form. This permit authorizes a diversion rate of 0.07 cfs (cubic feet per second) requiring a license examination fee of \$50.00. The \$50.00 portion of the submitted fee in excess of the required amount will be returned to you in a separate mailing.

The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

MEMORANDUM

TO: Water Right Permit File 94-8542

FROM: Daniel A. Nelson

DATE: November 10, 2016

SUBJECT: Field Examination Required

An in-house field exam was started on this permit, but the Shoshone County parcel data only shows one home within the place of use. The permit and proof of beneficial use form says there are two homes, but that can't be verified with county records. I counted what could be 4 to 5 buildings within the place of use. One of the parcels in the middle of the place of use isn't owned by the permit holder, so that would need to be addressed as well. I also found that the permit holder owns a parcel on the south side of the road, that also has a building on it, but the Shoshone County records don't show a home constructed on that parcel either.

The Department's information doesn't include the parcel data for this area, so I had to go to Shoshone County's parcel data at <http://data.idahoparcels.us/www/rib/shoshone.html> to find the information needed.

The county tax records for this area are a bit sketchy, and the permit holder has several tax parcels with parcels owned by other individuals mixed in between the permit holder's parcels. With all of these discrepancies I feel it would be in the best interest of the Department to have someone visit this site to figure out what is exactly going on.
