RE: Water Right Permit Nos. 65-13157 and 65-13896

NOTICE OF INTENT TO VOID PERMIT

Dear Water Right Holder:

The Department of Water Resources (IDWR) is in the process of reviewing the above-mentioned permits (copies enclosed) for licensure for irrigation purposes from a wastewater source. As part of the review, IDWR confirms that each condition of approval of the permit has been met during the development period. In the case of permits 65-13157 and 65-13896, it is not apparent how the following condition has been satisfied:

Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.

In order to issue licenses, you must submit documentation that demonstrates how this condition has been complied with, or install measuring and lockable device as required on your permits as soon as possible, or request removal of the device requirements from the permits. If you request removal of the requirements you should also submit documentation that this request would be acceptable to the watermaster of Water District 65, Payette River.

The watermaster for Water District 65, Payette River can be reached at:

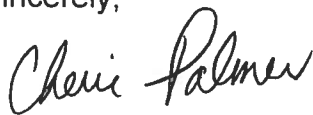

Ron Shurtleff
102 N Main St
Payette, ID 83661
(208) 642-4465
waterdistrict65@srvinet.com

Page 2

IDWR will hold further action on this permit for 30 days from the date of this letter in order to allow you time to respond. If a response is not received in the allowed time, we will assume that you are not interested in pursuing water right licenses and will take action to void the permits.

Please contact me at (208) 287-4944 if you have any questions regarding this matter.

Sincerely,

A handwritten signature in cursive script that reads "Cherie Palmer".
