Subject: RE: Address Change

Denise,

We are particularly concerned about the 19 water rights we submitted the forms for. The reason we focused on those 19 rights is because we recently submitted new applications to lease those rights into the Idaho Water Supply Bank and those applications must reflect the address of record.

However, we are very interested in getting the address change in place for all the USDA Forest Service water rights. It will require some clarification because the Forest Service is split into two Regions in Idaho so we will need to be cautious about making the change. We hope to work with IDWR to make those changes for all other water rights in the near future.

I hope the current request can be processed. If you have any concerns please feel free to contact me.

Jamie Gough
Water Rights and Uses Program Manager

Subject: Address Change

Good morning,

We received the Address Change forms that were recently submitted on behalf of the USDA Forest Service. Although there are only 19 water rights in Basin 71 listed on the forms, I wanted to verify that all water rights for the Forest Service with the old mailing address of 550 W Fort St MSC 033 in Boise should be changed to the Ogden, UT address? According to our records, USDA Forest Service has thousands of water rights that would be updated to the Ogden address.

I hesitate to update our records if there are only a select number of rights that you would like changed to the Ogden address. Please let me know &/or confirm that all water rights for the Forest Service can be updated as indicated on the forms submitted.

Thank you & have a good weekend,

Denise Maline
