RE: Water Appropriation Permit 75-7620

Dear Ms Pallott:

On May 4, 1998, the Department of Water Resources (IDWR) received a Proof of Beneficial Use statement submitted by Vernon and Sandra Puckett for Permit 75-7620, which authorized the diversion of groundwater for irrigation and stockwater purposes in Sections 4 and 5, Township 16 North, Range 21 East, for irrigation of 50 acres, in Lemhi County Idaho. Property records indicate that you are the current owner of the property.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. If you have not developed a beneficial use of water within the development period authorized by your permit, however, no water right has been established, and no license can be issued. Once the development period authorized by your permit expires, your permit cannot be retained to cover future development of the resource.

Please contact me to make arrangements for a field examination to be conducted on your property. If I do not hear from you within fourteen days, I will assume you no longer have any interest in establishing a water right, and I will take action to void the permit

If you have any questions, please contact me at 208-287-4879.

Respectfully,

Sandra Thiel
Water Resource Planner
