RE: Water Right No. 75-7620

Notice of Pending Order to Void Permit

Dear Mr Smith:

On May 4, 1998, the Department of Water Resources (IDWR) received a Proof of Beneficial Use statement submitted by Vernon and Sandra Puckett for Permit 75-7620, which authorized the diversion of groundwater for irrigation and stockwater purposes in Sections 4 and 5, Township 16 North, Range 21, East, in Lemhi County Idaho. In September 2004, IDWR received a Notice of Change in Water Right Ownership from you on behalf of Louja West, L.L.C., Lauri Pallott. I have been unable to contact Ms. Pallott.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that all the requirements for establishing a water right were met. No water right license can be issued, however, if the development authorized by the permit did not occur within the authorized time period. For that reason, before issuing a license IDWR must conduct a field examination to verify the development.

On August 8, 2012, field examiners from IDWR stopped by the property at 3376 Highway 93 South, south of Salmon Idaho. They found no evidence of development. Please contact us about the water right permit. **If I do not hear from you within 30 days, I will assume you no longer have any interest in establishing a water right, and I will take action to void the permit.**

Please contact me by telephone at 208-287-4879 or by mail at the address on the letterhead.

Respectfully,

In September 2004 the Idaho Department of Water Resources received a change of ownership assigning the permit to Louja West, L.L.C. along with Lauri Pallott. I have been unable to contact Ms. Pallott and the Idaho Secretary of State lists you as a registered agent for Louja West, L.L.C. If this information is incorrect or if you know how I might reach Lauri Pallott please contact me.
