PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 25-14344

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

During my review of your proof and water right permit, I found that condition no. 6 of this permit might not have been completely complied with.

Condition no. 6 of this permit which states:

"Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works."

I recommend that this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Eastern Region Office of the Department located in Idaho Falls at (208) 525-7161.

Sincerely,

Darla Block
