Re: Application for Permit No. 74-7249

Dear Mr. Hanson:

On September 11, 2012 I met with Randy Olsen to conduct a field exam for water right 74-7249. This water right permit, from Agee Spring is for 0.2 cfs for the irrigation of 10 acres and for stockwater. I am working toward licensing this water right. When I visited the ranch for the field exam, it was late in the season and there was no irrigation taking place. As a result, I was unable to fully understand the system. There is a second water right that overlaps the place of use. Right 74-15590 from the West Fork Sandy Creek also provides water to the land identified as the place of use for 74-7249. Can you tell me if these two rights share the same system? Also I was not entirely clear about what land is actually irrigated from the spring. If you have any photographs showing water being diverted from the spring pipeline they would be help toward licensing this right. I have enclosed aerial photography to help with this process. My email address is Sandra.thiel@idwr.idaho.gov. If you have any questions please call me at (208)287-4879. Please respond by Friday, November 15. Thank you for your time.

Sincerely,

Sandra Thiel

CC: Randy Olsen
