☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.

☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**

1. Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the **primary right(s)** being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above.:

RE: Transfer No. 81267
Water Right No(s). 36-17056, 36-17057, 36-17058, 36-17059, 36-17060, 36-17061

Dear Nathan:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form as necessary, and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline
Administrative Assistant

To: Transfer 81267
From: James Bitzenburg
Re: Legal Notice Not Required

Legal Notice Not Required
11/9/2016

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

Transfer proposes to modify the POU of contiguous ground, so no advertisement is necessary per the March 18, 2009 Allen Merritt memo titled Guidance for determining advertising of transfers.

FEE MEMORANDUM

Date: November 9, 2016
To: Kevin and Delilah Slade transfer (#81267) file
From: Jim Bitzenburg
Re: Receipting/disposition of fees paid

This transfer was for the modification of the POU to reflect what was actually being irrigated. The change in acres was minimal, 5 acres out of 304 acres, so that percentage was applied to the combined flow rate limit of 5.75 cfs, yielding a rate of 0.1 cfs. The minimum fee of \$200.00 was applicable. The Slades paid \$200.00 when the transfer was filed with check #10234. The receipt number was S035799.

MEMORANDUM

Date: November 7, 2016
To: Transfer 81267, Kevin and Delilah Slade File
From: Jim Bitzenburg
Re: Evaluation of Sufficiency of Information Submitted

Application for transfer proposes to modify the place of use (POU) for 6 ground water irrigation rights which currently irrigate 304.0 acres with a combined flow rate of 5.75 cfs. The current and proposed places of use are located approximately 6.5 to 7.0 miles west and 2.0 to 3.0 miles south of the intersection of Main Street and Lincoln Avenue in Jerome.

The transfer should not be advertised per the March 18, 2009 memo by Allen Merritt pertaining to advertising guidance.

The transfer is in Water District 130, so watermaster comments will be solicited.

- **Authority to File:**
The Department's database indicates that the water rights involved are owned by the applicants, Kevin and Delilah Slade. The application was signed by Kevin and Delilah Slade. Tax lot data shows the owner of the property is WSJ Ltd. partnership, the previous owner. Copies of the deeds from the ownership change of the water rights from WSJ to the Slades have been enclosed with the application.
- **Water Right Validity:**
The rights were all decreed in the SRBA and recent aerial imagery shows all of the acres proposed to to be transferred have been irrigated, so forfeiture is not an issue.
- **Injury to Other Water Rights:**
None anticipated or foreseen. The transfer proposes to modify the place of use, so no enlargement will occur.
- **Enlargement of Use:**
None anticipated..
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated
- **Effect of the Agricultural Base of the Area:**
None Anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
