Conditions of Approval:

1. 155 This right shall receive 100 percent of its decreed quantity until the natural flow of the waters of the Boise River shall decrease so that all rights containing this condition cannot receive 100 percent of their decreed quantities, at which time this right and the other rights containing this condition shall first be cut to 75 percent of their decreed quantities, as the natural flow of the river decreases, beginning with the latest rights containing this condition and proceeding to the earliest rights containing this condition in the order of their priority dates, and after all of the rights containing this condition shall have been reduced to 75 percent of their decreed quantities, should the natural flow of the waters of the river decrease below the amount necessary to supply 75 percent of those decreed quantities, then this right and the other rights containing this condition, beginning with the latest and proceeding to the earliest, shall be reduced to 60 percent of their decreed quantities.
2. S45 Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoirs dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.
3. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
4. This right is a split from former right 63-31835 .
5. SD1 This right originated as all or part of right no. 8-C in the Stewart Decree and the historic Boise River Water Masters records.
6. K06 This right is limited to the irrigation of 0 acres of the 79 acres decreed for this right within the place of use described above in a single irrigation season. 79 acres has been dedicated to mitigate right nos. 63-31515, 63-33400, and 63-34265.

Comments:

1. medl 9/29/2010 mitigation
63-32614 is used as mitigation for water diverted under Permits 63-31515 and 63-33400.
Transfer 70024 was withdrawn upon approval of this pair of permits.

6. agrimm 11/2/2016 Mitigation By Non-Use
63-32614 is used as mitigation for water diverted under 63-31515, 63-33400, and 63-34265.
Updated to "Mitigation by Non-Use" and modified condition K06 was added to right 63-32614
through issuance of permit 63-34265 based on current IDWR policy/practices. The previous
shape drawn for this right mitigation use was maintained at the time of this update.
