RE: Application for Transfer of Water Right No. 34-2424B

Dear Blake:

Enclosed for processing is a new Application for Transfer for Water Right No.34-2424B. We previously filed another Application for Transfer for this water right, but due to protests that were filed, we have placed it on hold. I have previously spoken with James regarding this new application, and he verified that because the application only proposes to drill a new well in the same quarter quarter as the right is currently authorized, it would not be necessary to advertise the application for transfer.

We are currently negotiating with Jerry Browne, the owner of the property where the well will be drilled, to obtain an easement from him for the well and its associated pipeline. The attached Purchase and Sale Agreement between Jerry Browne and the Sorensens provides Jerry Browne's consent to this application for transfer.

If you have any questions, do not hesitate to contact me

Best Regards,

Luke H. Marchant
