Re: Notice of Change in Water Right Ownership No: 63-3522

Original: Water Right No. 63-3522

Split into: Water Right No. 63-3522 and 63-34164

Dear Water Right Holders:

The Department has received and processed a Change of Ownership for a portion of your Water Right as referenced above. This change of ownership resulted in a split of your water right.

When a portion of a water right has been conveyed to another owner and the original right has been split, a new water right number is created to represent the portion obtained by the new owners. For your records a poof report for 63-3522 and map depicting the place of use (POU) and the point of diversion (POD) are enclosed. Please refer to your water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.

Sincerely,

Phill Hummer

Re: Notice of Change in Water Right Ownership No: 63-3522 and 63-34162

Original: Water Right No. 63-3522

Split into: Water Right No. 63-3522 and 63-34162

Dear Water Right Holder:

We have received and processed a Change of Ownership for a portion of the original water right as referenced above. This Change of Ownership required a split of the original water right.

When a portion of the original water right has been conveyed to another, a new water right number is created to represent the portion obtained by the new owners. For your records a proof report for water right 63-3522 and 63-34162 and a map depicting the place of use (POU) and the point of diversion (POD) are enclosed. Please refer to your new water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Your portion of this water right has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion of this right, including adding a new point of diversion, then an Application for Transfer is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Thank you for your patience. If you have any questions concerning the enclosed information or this letter, please feel free to contact this office at 208-334-2190.
