Subject: Permit No. 97-7507

Dear Permit Holder(s):

The department acknowledges receipt of the Proof of Beneficial Use ("proof") form and license examination fee submitted for the above referenced permit. This permit qualifies for an "in-house" examination, which means the Department completes the field exam to determine and confirm the use being made of the water in our offices to speed up the licensing process.

Condition(s) of this permit may not have been complied with according to the information you have provided on your proof form.

Condition no. 7 of this permit states:

"A fish screen of 0.25 inch or smaller shall be installed and maintained at the point of diversion."

Please let me know if you have installed a fish screen at the point of diversion by responding to this email within 10 days.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office or at the department's website at www.idwr.idaho.gov .

If you have any questions, please contact me at (208) 287-4942.
