WATER RESOURCESSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
STATEMENT OF COMPLETION
FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY

 Amt. of Fee \$ 50.00
 Receipt No. 102565
 Received By DF
 Date Received 10/7/16

The Idaho Department of Water Resources considers this form a statement by the permit holder(s) that development of a water right has been **completed** and that water has been applied to beneficial use to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner.** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, contact any Department office or visit the Department's website at idwr.idaho.gov for an Assignment of Permit form. If you wish to relinquish your permit because you have not established the authorized use of the water and are not applying for an extension, please notify the Department in writing.

1. Permit No. 91-07472 Telephone No. 208-583-0362
 2. Name of Permit Holder(s) Clifford C Beck
 3. Mailing Address 706 Cottonwood Dr City St Maries
 State Id Zip 83861 Email beckdist@yahko.com
 4. Source of Water St. Joe River If **GROUND WATER** (well), Date Drilled mo. ____ / yr. ____
 Well Driller _____ Drilling Permit Number _____

5. Extent of use(s) completed as authorized by the water right permit:
 Domestic (No. of households) 1 Stockwater (No. and type of stock) _____
 Irrigation (No. of acres) 1 Other _____

6. Total rate of diversion or storage volume for which proof is submitted .04 cfs OR _____ acre-feet.

7. Compliance with a measuring device requirement, lockable controlling device requirement, and/or other conditions of permit: Refer to the approval conditions on your permit and respond accordingly.

The Department will not issue a license if permit conditions are not met.

Measuring Device	Is a measuring device required?	Yes ☐	No ☒
	If yes, has the measuring device been installed?	Yes ☐	No ☐
Lockable Controlling Device	Is a lockable device required to control the diversion?	Yes ☐	No ☒
	If yes, has the lockable device been installed?	Yes ☐	No ☐
Fish Screen	Is a fish screen required?	Yes ☐	No ☒
	If yes, has the fish screen been installed?	Yes ☐	No ☐

Other Conditions of Permit

Do the approval conditions on your permit require you to submit additional information in connection with your proof of beneficial use? If yes, list the conditions below and attach documents with the required information.

Completed? Yes ☐ No ☒

8. Fee Enclosed \$ 50.00 or not applicable ☐. See fee schedule on page 2 of the instructions.
 Proof statements filed without an appropriate fee, will be considered incomplete.

9. Person to contact to accompany the Department representative during field examination of the water system.

Name CLIFFORD BECK Telephone Number 583-0362
 Mailing Address 706 Cottonwood Dr City ST MARIES
 State Id Zip 83861 Email beckdist@yahko.com

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to a beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

Signature of Permit Holder (C. Beck) Date 10-4-16

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 91-7470

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. During my review of your proof and water right permit, I found that condition no. 7 of this permit may not have been complied with.

Condition no. 7 of this permit states:

"A fish screen of 0.25 inch or smaller mesh shall be installed and maintained at the point of diversion"

If this condition has not been met, I recommend this condition be complied with. Enclosed is a copy of this permit for your information. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Northern Regional Office of the Department in Coeur d'Alene at (208) 762-2800.

Sincerely,

Darla Block
Technical Records Specialist

MEMORANDUM

TO: Water Right Permit File 91-7470

FROM: Daniel A. Nelson

DATE: October 25, 2016

SUBJECT: Field Examination Required

Water right permit 91-7470 was held for an in-house field examination; however, the initial review of this permit raises significant questions that should be determined by an on sight field examination. The following are some of the issues that need to be addressed:

- The permit is only for domestic use including up to ½ acre of yard irrigation. However, the permit holder has 2 lots totaling 9.4 acres. The aerial photography suggests that except for the driveway and the home, the remainder of the 9.4 acres is currently being irrigated. The domestic limitation of ½ acre could not cover the approximate 9 acre of irrigation.
- The permit required that a fish screen be installed, and on the proof of beneficial use, the permit holder stated that no fish screen had been installed on the pump.
- The final issue is that this lot falls within the borders of the Cotton Point Water and Sewer Association (CPWASA), so the domestic in-house water may be supplied by the CPWASA. If the in-house is supplied by the CPWASA, then this permit should be limited to external domestic use only. This would enhance the concern about the need to confirm exactly how much land is actually being irrigated.

The questions above provide a need to verify the use developed under this permit with a field examination to avoid a possible violation of water use later on.
