Re: Change in Water Right Ownership: Water Right No. 65-22281 (Split into 65-22281 and 65-23677) and 65-22308

Dear Water Right Holder(s):

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records based on the information received to reflect the change in ownership and has enclosed a computer-generated report for your records.

Your portion of these water rights has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form or you can find the forms at www.idwr.idaho.gov. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please feel free to contact me at 208-287-4942 if you have any questions concerning the enclosed information or this letter.

Sincerely,

Jean Hersley

Re: Change in Water Right Ownership: Water Right No. 65-22281 (Split into 65-22281 and 65-23677)

Dear Water Right Holder(s):

We have received and processed a Change of Ownership for a portion of your original Water Right as referenced above. This change of ownership resulted in a split of your original water right.

When a portion of the original water right has been conveyed to another and the original right has been split, a new water right number is issued to the new owner representing their portion of the original water right. Each water right contains only the portion of the original right for each separate owner. The original water right number reflects your remaining portion of the water right, after the change of ownership. Enclosed is a copy of this water right for your records. Please refer to your water right number when corresponding with our office.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

If you have any questions concerning this ownership change, or the enclosed information, please contact me at 208-287-4942.

Sincerely,

Jean Hersley

RE: Ownership Change Water Right: 65-22281 and 65-22308

Dear Property Owner:

The Department of Water Resources acknowledges receipt of your request for a Notice of Change of Water Right Ownership on the above mentioned water right. In reviewing the information provided to us, it was determined that the deeds you included does not convey all the property the irrigation use of water right 65-22281 is appurtenant too. The irrigation use of this water right will need to be divided. The deeds you provided only include land in Township 07N, Range 01E, Section 14, NWSE. The Department has contacted Gem County and all the deeds in the name of Shannon and Robert Hamley have been sent. Enclosed you will find a water right report and a map depicting your property and the water right place of use.

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership. The fee is \$25 per water right, except for ownership changes resulting in the division of a water right, which is \$100 per water right. All ownership change notices received after June 30, 2000 must include the appropriate filing fees in order to be processed. The Department has determined that the additional filing fee for your notice will be **\$75**.

Because the Department cannot process the ownership change without proper fees, we will hold any action on your notice pending receipt of the necessary fees. If we do not receive the necessary fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Please contact me at 208-287-4942 if you have any questions.

Sincerely,

Dear Property Owner(s):

Thank you for submitting your request for a Notice of Change in Water Right Ownership for the above mentioned water rights. After reviewing your request, it was discovered that additional information is needed to process this request.

Also, the deeds you provided do not include land appurtenant to water right 65-22308. Please send additional warranty deeds that include these lands.
