Good morning Lori,

I just noticed the proposed depth of the well listed on 7.c. of the application is 700'. Would you like the application advertised with a WBZ of 300' to 650' or 300' to 700'?

Hi Rachel,

Talked to Russell Frisby this morning. The WBZ is 300 to 650 feet and no, they will not use the D0072951 well. Thanks much Rachel.

Hello Lori,

I have finished my review for the Frisby application and minimal information is needed at this time.

1. What WBZ do they plan to appropriate from?
2. Do the applicants still plan to use well 63-96-W-0738-000 in section 17 or are they planning to use the new well authorized for that QQ D0072951?
 - a. If they plan to use D0072951 they will need to submit a well upgrade fee of \$125.

Once this information is received I will get the application into advertising for October 19th and 26th. Please let me know if you have any questions.

Sincerely,

Hi Lori,

I just spoke with Sandra Thiel at our state office and she stated you have concerns regarding multiple applications filed for Frisby Land Holdings LLC. I reviewed the file yesterday and additional info may be needed. I will try to get a request to you by this evening if info is necessary. It would be unfortunate for your client to spend additional money on a water supply bank application if this permit can be approved.

Subject: Application for Permit

Dear Angie,

Enclosed on behalf of the Frisby Land Holdings, LLC, is an *Application for Permit* seeking to divert ground water for primary irrigation of 21 acres and supplemental irrigation of 68 acres in Payette County.

Check No. 2010 for \$290 is enclosed for the filing fee. Thank you very much for your consideration and assistance in this matter. Please call me if you have any questions.

Sincerely,
