Morgan -

I had contacted you sometime back regarding a water right question (see below). We updated the POU (see attached shapefile). This applies to water right 95-9012.

Let me know if you have any questions or concerns.

Thanks!

Subject: RE: Water Right Question
Ashley,

We can update the municipal service boundary with a clear map, although a shapefile would be preferable. Please submit the new information with a list of the associated water rights and we should be able to process it fairly quickly.

Thanks,

Morgan

Subject: Water Right Question

Hi Morgan -

We had a water right question come up. We have a municipal water right, and we are adding a service that is outside the POU. Can we send you a revised POU or do we need to do something more formal?

Thanks!
