Subject: Extended Deadline for Response Briefs

Dear Parties,

I was contacted this morning by Charlie Honsinger and Bill Parsons about the deadline for filing response briefs to summary judgment motions. According to the Order Establishing Schedule for Pre-Hearing Motions, response briefs were due on or before October 5, 2016. Because of a miscommunication between the attorneys, Mr. Parsons thought he had additional time to prepare a response brief. The attorneys asked if the response brief deadline could be extended to Tuesday, October 11th. I have no objection to the proposed extension. This email is intended to confirm that the deadline for filing response briefs to pre-hearing motions is extended to October 11, 2016.

Mr. Parsons indicated that he doesn't see a need for oral arguments on the motions. Mr. Honsinger asked to be given a chance to see the response brief from Albion 12 and will contact me immediately thereafter if he feels oral arguments are needed. I committed to take action on the pre-hearing motions as quickly as possible after the October 11th deadline. Based on the outcome of the pre-hearing motions, the parties may decide to file a petition to advance the hearing date to allow additional time for preparation.
