EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Transfer Application 80501 and Well Drilling Fee Upgrade

Dear Applicant:

You submitted an application for transfer related to water right 63-34150 on October 28, 2015. We have almost completed the processing of your application, but need additional action regarding your well. Your recent transfer application proposes ground water use from an existing domestic well. All wells drilled in Idaho after June 30, 1987, require well drilling permits. A well might need a water right along with the drilling permit, depending on the intended use of the well.

According to the records of Idaho Department of Water Resources (IDWR), your well was drilled in 1993 under a \$35 domestic well drilling permit. A \$35 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well.

Proposed irrigation use from your well does require water right approval, and your transfer application seeks that approval. The well drilling fee for a well requiring a water right is \$200 instead of \$35. Per Well Construction Standards Rules (IDAPA 37.03.09.045.05.b), IDWR must collect the unpaid balance of \$165 for a well drilled under those circumstances.

Please remit \$165 to upgrade your well drilling permit within the next thirty days to facilitate processing of your transfer application.

There are many wells in your area and it is possible that your domestic well was drilled in a different year. If your well was actually drilled after 1996 or before 1990, the upgrade fee may be different than the above described. If you have information that shows that your well was drilled in a different year, please contact me at 208-334-2190 and we can discuss the appropriate upgrade fee.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me if you have any questions. Thank you for your attention to this matter.

MEMORANDUM

Date: February 23, 2016
To: Transfer 80501
From: Danielle Merriman
Re: Review & Evaluation of Sufficiency of Information

Authority to File: The Application for Transfer of Water Right was submitted and signed by Stephen H and Connie J Farden, who are the owners of the land at the POU and POD as well as of water right 63-34150, giving them the authority to apply for the transfer.

Water Right Validity: Water right 63-34150 was split from its parent right, 63-3333, in October of 2015. The right has a decreed date of 2/6/2009. Department standards on determining forfeiture state that forfeiture will not be found if use is resumed by the end of the sixth year following the decree. An extension of time to avoid forfeiture was filed on 10/28/15, before the end of the sixth year, thus preserving their right from forfeiture. The extension was approved 1/8/16 with a resumption of use date of 7/1/20.

Injury to Other Water Rights: Water right 63-34150 lists the POD as T02N R02W Sec2 SWSW and has a shape to the north in the property of Mary Carter. This is the point of diversion for the original water right, 63-3333, that 63-34150 was split from. This transfer proposes adding a point of diversion in that the new owners do not want to use the original well on Ms. Carter's property. They want to upgrade an existing domestic well on their property and use it for the extent of water right 63-34150. The transfer proposes to change the point of diversion to this well a tenth of a mile from the original well. Changes to water supply will not occur and injury to other water rights is not apparent.

Enlargement of Use: Transfer proposes to move a total of .08 cfs and 18.5 af within the same 4.6 acres of water right 63-34150. No enlargement is anticipated as a result of the proposed changes.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
