

MEMORANDUM

Date: September 21, 2016

To: Application for Permit/Permit 36-16406, North Rim Fairways Owner's Association

From: Jim Bitzenburg

Re: Summary of 2016 activity on the application

Application for permit 36-16406 was filed on February 24, 2006 and was protested by Pristine Springs, Inc., Clear Springs Foods, Inc., and the City of Twin Falls. Apparently no progress was made since that time to resolve the protests until IDWR sent out a letter inquiring as to the applicant's continuing interest in the application. The applicant did wish to pursue resolution of the protests, so a prehearing conference was scheduled for April 14, 2016. Clear Springs Foods withdrew their protest before the prehearing conference and the City of Twin Falls withdrew their protest after the prehearing conference as a result of North Rim Fairways proposing amending the application. Pristine Springs' protest was dismissed because they did not appear at the prehearing conference.

It was discovered that several lots in the subdivision were left off the original application and also off of the amended application, so a second amended application was submitted. It was also clarified that the two Silver residences were already covered for in-house use under existing right 36-8399, but did not have access to North Side Canal Company water for irrigation purposes, so the amended application will allow ½ acre of irrigation for each Silver residence, but not in-house use. The second amended application covers all of the intended lots, and with the additional lots, a small amount of flow rate was added to the application (from 0.20 cfs to 0.23 cfs). The second amended application was emailed to the attorney for the City of Twin Falls, Fritz Wonderlich, who gave his approval.
