Re: **Transfer No. 81125**, Water Right (s). (24 Wtr Rights & 74 page Doc's) 45-236, etc.

Dear Denise,

I have reviewed the 74 pages of documentation pertaining to the above reference transfer 81125 dealing with water Right's 45-13589, 14449, 14450, 14451, 14452, 45-236, 240, 246B, 259, 274, 284B, 285, 285A, 287, 290, 291, 327D, 517D, 518, 519, 523A, 528, 706, 45-707. As I have indicated on the Recommendation Form, I have a problem with the transfer of water between the two ranch's since its dealing with creating a BLANKET RIGHT. But we have that situation elsewhere within the MCWD45F.

Therefore, I do not oppose the approval of this application if the following conditions are applied as follows:

- a) Albion 12 Investment 12 Ranch does not have a water right pertaining to Summit Creek nor the capability of utilizing waste water it runs Northeast of the Albion/Rose Creek Ranch's coming in at the Bennie Smyer Reservoir and on north to Howell Creek at 1350 East/950 South (just south of David Bell's house. Therefore no POD as indicated in transfer.
- b) I recommend that if transfer 81125 is approved that the state (IDWR personnel) be the responsible party in making sure all POD's that are currently under protest (Un-named Creek and Spring Creek) and also those PODs that are not yet in compliance that are in question and outstanding at this time.
- c) Those areas of concern are Board Hollow Creek, Rose Creek, (Spring Creek and Unnamed Stream under protest).
 - a. Kevin Smyer has got his measuring device and head-gate ready to place. I have yet to verify if it falls in compliance.
- d) Rose Creek had one POD (original Pipe at the Rose Creek entrance, which is on BLM property and not Fred Hawker as stated). Also, the second weir which is north of the BLM is not a POD but a weir in stream channel for measuring (24" Cipolletti weir) Rose Creek Ranch water being delivered.

Note: With all the implementation of ponds and the returns to the creek, Water Resource personnel overseen that everything was in compliance at one of the other Ranch's within MCWD45F, this included staff gauges, weirs & head-gates with a followed up, by the Watermaster.

The other concern I have is the combining or comingling of all waters to his large pond(s) and redistributing the water to the two different ranches. As it stands today

- All of Albion Ranches water rights are measured at what I call Howell Creek (HC1N, 2E and 3W).
- Rose Creek Ranch, the current POD off Rose Creek.
- Broad Hollow Creek was measured at two POD's
 - Broad Hollow Creek where it is diverted off the creek S29 (NESW) and back over on S20 (SWSW)(41) there is an in stream 24" Cipolletti weir. I read both areas for loss on the lateral. As of today I only read the diversion point off of creek.

Respectively submitted,

Don G. Gunderson
