Hi Denise,

I just received the above subject matter yesterday at 14:00 hr's 9/14/2016 and the letter that's was drawn up is dated 9/8/2016! I have lost 7 days off the review and I'm leaving the area for an additional 3 days for Indianapolis, IN. That's beside the point.

The seven days that it takes to get the mail from Twin Falls to Albion needs some sort of Band Aid in order for me to make a proper decision on what you send me for review.

Corey, if you need to convers with me, please call 208-312-5359. I will basically be on the plane from 06:30 hours leaving Boise arriving in Indy 14:24 provided everything is on schedule the 9/16/2016.

If the Ray Robinsons transfer is dealing with Howell Creek. He has not used that water for some 24 years its always been ground water from his Well. If this is so The well is supplemental to surface! I believe it needs to be turned around in his case.

- 1. This information I was given privy too by his brother Leroy Robinson, a couple of weeks ago.*

*I can be reached today by phone if need be all day taking measurements and traveling to Boise.
Best Regards,*

*Don G. Gunderson, Watermaster
