Mailing address City State ZIP
- Telephone _____ Email _____
4. If the water rights and/or adjudication claims were split, how did the division occur?
☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☒ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: May 6, 2015
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed [IRS Form W-9](#) for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed [Lessor Designation](#) form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
- ☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
 - ☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
 - ☒ Filing fee (see instructions for further explanation):
 - o \$25 per *undivided* water right.
 - o \$100 per *split* water right.
 - o No fee is required for pending adjudication claims.
 - ☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
 - ☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

Dear Water Right Holder:

The department acknowledges receipt of correspondence changing ownership and splitting the above referenced water right. The department has modified its records to reflect the changes and has enclosed computer-generated reports for your records.

Your portion of the water right has a specified point of diversion, nature of use and place of use. If you plan on changing any of these, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. If you do not plan on changing any items on your water right, then no further action is required at this time.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

**RE: Multiple Notices of Change of Water Right Ownership Regarding Water Right
Nos. 22-13945, 22-13947, 22-13949, 22-13951, and 22-13953.**

Dear Jonie:

Last month I sent you multiple *Notices of Change of Ownership* on behalf of NorVue Farms General Partnership. The enclosed documents relate to ownership changes for another farm known locally as the Old "Nedrow Farm". The partition of this farm involves five entities, which are: Fromover 9 LLC, Unit 8 Farms LLC, Juniper View LLC, Unit 2 LLC, and Unit 1 LLC. I am also authorized to act on behalf of these entities. We have include recorded deeds for the conveyance of property to each entity. As contained on each of the deeds, they clearly state that each conveyance includes appurtenant water rights.

For the above-referenced water rights, they have combined limitations, the most important of which is the combined acres authorized for irrigation in the amount of 2,724.6 acres. Based upon the portion of the GIS shapefile that overlaps with their property, I have calculated a percentage of the water rights that should go to each entity on the attached spreadsheet, and then multiply that percentage by the combined diversion rate of 23.44 cfs to come up with a diversion rate for each of the entities. Overall, this split this will be simpler than the prior ownership change documents I submitted on the old Klingler Farm. The property shapefiles on the enclosed maps were obtained from Madison County Tax Parcel data, which we believe are accurate. If you would like us to email you those shapefiles for any reason, please let us know and we will be happy to do so.

The final two NCOs involve water rights that overlap onto land that have potato cellars and/or shops. The first of these NCOs involves land owned by 8 LLCs and tenants-in-common. The second of these NCOs involves a potato cellar owned by Unit 1 LLC and Crapo Ag LLC. If you have any questions on these, let me know.

Finally, as I discussed with you previously, because all of the *Notices of Change of Water Right Ownership* are being submitted together, it is only necessary to pay the filing fee once. Therefore, because we are splitting five water rights, at \$100.00 per water right, enclosed please find a check in the amount of \$500.00.

If you have any questions or concerns, please let me know. I appreciate your immediate attention to this matter.

Best Regards,
