Comments:

1. mholliday 1/25/2010 SF5
Version 2 prepared to resolve IDL objection. Original recommendation 22-7068 was split. This recommendation contains only the land owned by the claimant. The IDL portion of 22-7068 is now shown as 22-13950. License 22-7068 was issued in April 1998. However, comments on the permit for 22-7385 dated 6-24-82 and on Keith Wilsons beneficial use field exam done on 7-17-87 indicate that there were 6 interconnected wells serving the entire permissible pou prior to 11-19-1987. The map used for determining the licensed acres was used to create the pou shape. Due to the use of arcmap, the legal description of the pou differs slightly. Therefore recommending accomplished transfer in pou. However the version 1 recommendation showed one pod in the SWNE of section 26. That well was not completed until 2004 and therefore does not qualify as an accomplished transfer. The pods are being recommended consistent with the licenses for 22-7068, 22-7302, and 22-7385. Conditions were also adjusted for SF5.
