Re: Application for extension of time for 37-444 and 37-7636A (Philip Cash)

Dear Corey:

On behalf of the Big Wood Canal Company I had a conference with you and Travis Thompson on September 13, 2016. During that discussion all parties agreed on certain provisions. These provisions supercede and replace the conditions set forth in my letter of August 10, 2016. Based upon those discussions, the Big Wood Canal Company is willing to withdraw its Protest on the following terms.

1. By withdrawing the Protest, Big Wood Canal Company does not in any manner limit itself from taking action to curtail the water rights if it is determined the water rights are injurious to Big Wood Canal Company's stockholders.
2. The comments would limit the two water rights in question, together with water right 37-2541 to a combined use limit not to exceed 360 acres. The 360 acres can be within a permissible place of use, which I understand will be determined pursuant to a subsequent transfer.
3. Flow meters will be installed pursuant to Department policies specifically pursuant to an Order signed by Alan Merritt dated December 21, 2001. The combined use requirement would provide that the combined water rights not exceed 953 acre feet annually.

Thank you for your assistance, and Travis for yours, in resolving this matter.

Sincerely,

Craig D. Hobdey
