Rob-

I spoke to Cindy about the North Rim Application, and she suggested filing another amended application adding the 6 additional lots. I think the only change to the POU chart on the application would be to add the NWNW (Government Lot 1) of T09S, R17E, Section 19. She was fine with adding flow rate, so I took the chart we use (attached) and rounded up to 0.23 cfs for 23 lots. If all of this sounds okay to you, just submit another amended application and we'll try it again. We won't need to advertise, but one of use can send a copy to Fritz Wonderlich so he can voice his approval. Or not.

Thanks for your assistance, and let me know if you have any questions or concerns.
