MEMO

To: Idaho Water Resource Board
From: Brian Patton
Subject: Ground Water Districts Interim Loan and Aqualife Hatchery
Date: November 12, 2015

Attached for your consideration is a resolution that would do the following:

- Authorize the sale of the Aqualife Hatchery to the 10 Ground Water Districts on the Eastern Snake Plain.
- Increase the amount of the \$4M interim loan to the 10 Ground Water Districts approved on September 18, 2015 by \$3.2M to include the cost of the Aqualife Hatchery Purchase in the loan. *(NOTE: this would not require a cash disbursement from the IWRB, but the \$3.2M value of the facility would be added to the loan as ownership is transferred to the Districts).*

Background

The 10 Ground Water Districts on the Eastern Snake Plain have collectively received judicial confirmation to incur up to \$15M in debt to carry out the Hagerman Valley Settlement. This includes the cost of the \$4.3M Magic Springs-Rangen Pipeline, which has already been built, as well as several other projects.

As you may recall, on December 24, 2014 the IWRB approved loaning \$1.26M to the Magic Valley GWD and the North Snake GWD for the Magic Springs-Rangen Pipeline with those two districts covering the rest of the construction cost. The \$1.26M loan amount and the repayment date of September 30, 2015, was dictated by the extent of the Districts' previous borrowing authority.

On September 18, 2015 in Twin Falls, the IWRB approved increasing the loan amount to \$4M, with all 10 Districts as borrowers and a September 30, 2016 repayment date. The IWRB further committed to dealing with the Aqualife issue at a later date. The plan is for all 10 districts to finance the \$15M package through IWRB-issued revenue bonds (or other long-term financing as may be available).

The projects in the Hagerman Valley Settlement are as follows:

1	Magic Springs Rangen Pipeline	\$4.3M	Complete
2	Magic Springs-Billingsley Cr. tail water pipeline	\$4.3M	
3	Billingsley Bridge Diversion Pump	\$0.3M	
4	Pipeline easements	\$0.1M	
5	Sandy Pond measurement devices	\$0.05M	
6	Aqualife purchase from IWRB	\$2.0M	
7	Aquaculture subordination settlement agreements (4)	\$0.338M	Complete
8	Engineering	\$0.250M	
9	Legal	\$0.250M	
10	Contingency/unexpected expenses	\$3.112M	
	TOTAL	\$15.0M	

Aqualife Facility

The Aqua Life Hatchery is located in the Hagerman Valley along Billingsley Creek. The hatchery was developed in the 1950's and 1960's. It has been owned by the State of Idaho Department of Parks of Recreation since 2001, and was acquired by Parks as part of a larger land purchase for state park development (adjacent to this hatchery is the Vardis Fisher Pond and the site of Idaho author Vardis Fisher's home) The hatchery is currently functional, although somewhat deteriorated.

The Aqua Life hatchery utilizes water from the Big Spring complex and from Billingsley Creek. Water rights associated with the facility are as follows:

Water Right	Source	Priority Date	Rate (CFS)	Water Use
36-2338	Big Springs	1954	54.68	Fish Propagation
36-15476	Big Springs	1954	1.00	Aesthetic, recreation, wildlife (Vardis Fisher Pond)
36-2414	Tupper Spring (part of Big Springs complex)	1959	4.00	Fish Propagation
36-2734	Billingsley Creek	1965	100.00	Fish Propagation
36-4011	Billingsley Creek	1965	12.00	Fish Propagation

Current water available includes about 40 cfs from the spring and about 25 cfs from Billingslay Creek.

Pursuant to HB644 passed by the 2014 Idaho Legislature, the IWRB acquired Aqualife and the surrounding property from the Idaho Department of Parks and Recreation for the purpose of using the facility and its assets to assist in resolving water delivery calls in the area. The IWRB paid Parks \$1.88M. Per HB644 Parks also received an ongoing increase in their general fund budget of \$250,000 annually.

Districts' Plan for Aqualife

Staff understands that the Districts' intend to purchase the Aqualife Facility from the IWRB and transfer ownership to Seapac of Idaho. Seapac would get Aqualife in exchange for Seapac providing 10 cfs from its Magic Springs Hatchery to the Districts to deliver to Rangen through the Magic Springs pipeline. Further, Staff understands that this is to be done by the end of 2015.

Appraised Valuation

The IWRB had an appraisal of Aqualife and the surrounding property done by Lemoyne Appraisal. As of August 14, 2015 Lemoyne appraised the value at **\$3,200,000**.

A prior appraisal was done in 2011 by Integra Realty Resources for Parks. As of July 5, 2011 Integra appraised the value at: Aquaculture Facility: \$1,635,000 and Surrounding Property: \$1,040,000 for a total of **\$2,675,000**.

MEMO

To: Idaho Water Resource Board
From: Brian Patton
Subject: Ground Water Districts Interim Loan and Aqualife Hatchery
Date: December 14, 2015

On November 17, the IWRB approved a resolution that did the following:

- Authorize the sale of the Aqualife Hatchery to the 10 Ground Water Districts on the Eastern Snake Plain with water rights subordinated so a future owner could not make a delivery call against the Eastern Snake Plain Aquifer.
- Increase the amount of the \$4M interim loan to the 10 Ground Water Districts approved on September 18, 2015 by \$3.2M to include the cost of the Aqualife Hatchery Purchase in the loan. *(NOTE: this would not require a cash disbursement from the IWRB, but the \$3.2M value of the facility would be added to the loan as ownership is transferred to the Districts).*

It was noted during the discussion that the \$3.2 million sales price was based on an appraised value of the facility with unsubordinated water rights, while a condition of the November 17 resolution required that the water rights be subordinated prior to sale to the Districts. The IWRB Chairman committed to revisiting the issue.

The IWRB's appraiser issued an addendum to the appraisal on December 1, 2015 that estimated the value of the facility with subordinated water rights at \$2.6 million.

The IWRB therefore has the following options:

1. Sell Aqualife to the Districts with unsubordinated water rights at a cost of **\$3.2 million**. There appears to be little risk that the Districts would subsequently transfer ownership of Aqualife to Seapac with unsubordinated water rights placing their ground water user members at risk of a delivery call by Seapac.
2. Sell Aqualife to the Districts with subordinated water rights at a cost of **\$2.6 million**. This would ensure beyond any doubt that a future owner of Aqualife could not place a delivery call against the aquifer and ground water users.
3. Since the issue is one of who pays for the subordination, one option that has been discussed among IWRB leadership is to sell with subordinated water rights and split the cost of the subordination between the IWRB and the Districts, resulting in a sales price of **\$2.9 million**.
4. Leave the November 17 authorization and resolution in place and unchanged.

Attached for your consideration is a resolution that can be used with options 1, 2, or 3.

BEFORE THE IDAHO WATER RESOURCE BOARD

IN THE MATTER OF THE AQUA LIFE
AQUACULTURE FACILITY

) A RESOLUTION CONCERNING
) A LETTER OF INTENT

WHEREAS, the Idaho Water Resource Board (the "Board") is a constitutional agency of the State of Idaho and empowered by Idaho Code § 42-1734 to acquire, purchase, lease or exchange land, rights, water rights, easements, franchises and other property deemed necessary or proper for the construction, operation and maintenance of water projects; and

WHEREAS, pursuant to House Bill 644, adopted by the Sixty-second Legislature of the State of Idaho during its Second Regular Session in 2014, the Board acquired the Aqua Life Aquaculture Facility from the Idaho Department of Parks and Recreation for the July 11, 2011 appraised value of \$1,635,000; and

WHEREAS, the Board's acquisition of the Aqua Life Aquaculture Facility is in furtherance of the State's desire and goal to reduce demand on spring flows in the Hagerman Valley; and

WHEREAS, the Board's acquisition of the Aqua Life Aquaculture Facility also included associated water rights 36-1044, 36-2734, 36-15476, 36-2414, and 36-2338, as well as rights under NPDES Permit #IDG-13000; and

WHEREAS, on May 7, 2014, the Board entered into a "Letter of Intent" with the Idaho Ground Water Appropriators, Inc. (IGWA), and the Idaho Department of Fish and Game, which contemplates the Aqua Life Aquaculture Facility being a necessary part of a plan to relocate an existing Idaho Department of Fish and Game (IDFG) fish hatchery to address water calls in the Hagerman Valley;

WHEREAS, by letter dated May 30, 2014, IGWA has submitted a second "Letter of Intent" to the Board, which contemplates direct delivery of up to 10 cfs from the Aqua Life Facility, at a cost yet to be determined, to address water delivery calls in the Hagerman Valley, but does not contemplate relocation of the IDFG fish hatchery.

NOW, THEREFORE BE IT FURTHER RESOLVED, the Board authorizes the Chairman to execute the "Letter of Intent - Use of water from the state's Aqua Life Hatchery, Construction of Pump Station and Pipeline, and Construction of Improvements and the Aqua Life Aquaculture Facility" dated July 18, 2014, between the Board and the Idaho Ground Water Appropriators.

DATED this 18th day of July, 2014.

ATTEST:

ROGER CHASE, Chairman

BOB GRAHAM, Secretary

LETTER OF INTENT

USE OF WATER FROM THE STATE'S AQUA LIFE HATCHERY, CONSTRUCTION OF PUMP STATION AND PIPELINE AND CONSTRUCTION OF IMPROVEMENTS AT THE AQUA LIFE AQUACULTURE FACILITY

This Letter of Intent ("LOI") is entered into by and between Idaho Ground Water Appropriators, Inc. ("IGWA"), and the State of Idaho, by and through the Idaho Water Resource Board ("IWRB").

RECITALS

A. In response to Rangen, Inc.'s ("Rangen") water delivery call, the Idaho Department of Water Resources ("IDWR") determined in its January 29, 2014 order that holders of ground water rights junior to July 13, 1962 must provide 9.1 cfs of direct flow to Rangen.

B. IGWA represents ground water districts whose members consist of irrigators, municipalities, and commercial and industrial entities with ground water rights. Many of the ground water districts' member's water rights are junior to Rangen's water rights and are subject to curtailment unless a mitigation plan is approved providing replacement water.

C. IWRB owns and operates the Aqua Life Aquaculture Facility Hatchery ("Aqua Life") and is willing to make available to IGWA by lease or purchase up to ten (10) cfs of its Aqua Life water rights from Big Springs as needed to meet the mitigation obligation to Rangen.

D. IWRB and IGWA intend to commence negotiation of a final agreement consistent with the terms set forth below.

TERMS

The Agreement shall have the following terms and conditions:

1. The Agreement will be contingent upon IWRB acquiring title to Aqua Life. IWRB and IGWA acknowledge that House Bill 644, adopted by the Sixty-second Legislature of the State of Idaho during its Second Regular Session in 2014 authorizes Idaho Parks and Recreation to sell Aqua Life to the IWRB.

2. IWRB will lease or sell up to ten (10) cfs of water from the Aqua Life to IGWA for an amount to be determined.

3. IGWA will pay all costs to design, construct, operate and maintain the water collection and intake system pump station, pipeline and other facilities necessary to deliver 10 cfs of water from the Aqua Life to the head of Billingsley Creek directly up gradient from the Rangen hatchery. IGWA will ensure that the diversion structure to be constructed will not interfere with the use of IWRB's remaining water rights at Aqua Life.

4. IGWA shall be responsible to secure from IDWR approval of a transfer application to change the point of diversion and place of use as needed to accomplish the delivery of Aqua Life water rights to Billingsley Creek. IWRB hereby grants consent to IGWA to file and process such transfer application, with the approved transfer made subject to the Agreement.

5. IWRB will grant IGWA a permanent easement at Aqua Life to design, construct, operate and maintain the water intake and collection facilities, pump station, pipeline and other facilities as necessary for the delivery of up to 10 cfs of water to Billingsley Creek. IWRB will convey to IGWA a permanent easement to access and maintain the pump station and water supply pipeline.

6. IWRB will cooperate with IGWA and provide all necessary documents to conduct such investigation as it shall deem appropriate.

7. All transaction fees for closing and all recording fees will be shared equally between IGWA and IWRB. Each party will be responsible to pay its own legal fees.

8. The Agreement will be contingent upon: (a) IGWA securing an order from IDWR approving a mitigation plan providing for the delivery of 10 cfs from Aqua Life's Big Springs water rights to satisfy the mitigation obligations to Rangen; (b) IGWA securing an order from IDWR approving the transfer of the point of diversion and place of use of up to 10 cfs from Aqua Life to the head of Billingsley Creek and, (c) IGWA proceeding to implement the plan.

This LOI may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute but one and the same agreement. Delivery of an executed counterpart of this LOI via facsimile transmission shall be as effective as delivery of an original signed copy. Thereafter, the parties shall exchange executed originals of this LOI.

This LOI is intended as a general expression of the terms and conditions, under which the parties are willing to proceed to prepare, negotiate and if acceptable to all parties in their respective sole discretion, execute a final Agreement. Neither this LOI nor the execution hereof as provided below, shall be binding on any party until the formal Agreement is executed by all parties.

Please indicate your acceptance and agreement with the terms of this LOI and desire to proceed to negotiate a final Agreement incorporating the terms and conditions as outlined above by executing the enclosed copy of this LOI in the space provided below and return such executed copy to the other parties.

Sincerely,

Idaho Ground Water Appropriators, Inc.

RE: Change of Ownership for Water Right Nos. 36-2338, 36-2414, 36-2734, 36-4011
And 36-15476

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right(s). The department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Also, please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Trish Fawcett', written in dark ink.
