RE: *Amended Application for Transfer for Water Right No. 35-2314 et al., Filed on Behalf of 4W Farms.*

Dear Blake:

Enclosed for processing is an *Amended Application for Water Right Transfer* which we discussed earlier this week. The enclosed amended application slightly changes the place of use description per quarter quarter and amends the GIS shapefiles of the water rights we discussed. We have already paid the filing fee. We understand with these changes, you will process the application accordingly. Consistent with the Department's policy, we do not anticipate that this transfer will be advertised as it only proposes to shift the place of use of the listed water rights. If you have any question or concerns, please let me know. I have already emailed you the GIS shapefile for the new place of use of the water rights.

Best Regards,

Robert L. Harris

RE: *Application for Transfer for Water Right No. 35-2314 et al, File on Behalf of 4W Farms.*

Dear Blake:

Enclosed for processing is an *Application for Water Right Transfer* for a number of water rights that have a combined place of use of 744 acres owned by 4W Farms. This transfer is in response to an unauthorized water use letter. The changes propose to rearrange 10.3 acres to cover a small mini pivot installed by 4W Farms, as well as to generally clean up the water rights shapefile of the combined water rights. In addition, the transfer rounds the acreages listed in the water right reports to the nearest whole number for those quarter-quarters that contain more than 10 irrigated acres (except for a couple of exceptions in two quarter-quarters).

We have also included a filing fee in the amount of \$200.00 for this transfer. This amount was arrived at by taking 10.3 acres, which is the acreage to be shifted, divided by 744 acres consisting of the entire place of use, and multiplying that percentage by the combined diversion rate of all the water rights of 12.05 cfs. This equates to .167 cfs, and correlating this diversion rate to the transfer fee schedule, results in a filing fee of \$200.00. If you believe a different filing fee is necessary, please let me know.

Finally, consistent with Department policy, we do not anticipate that this Transfer will be advertised as it only proposes to shift the place of use of the listed water rights. We are not proposing any other changes to the water rights.

If you have any questions or concerns, please let me know. I will email you the GIS shapefile for the new place of use within the next day or so.
