Right Acre Limit: 27.0

POU Total Acres: 63.0

Conditions of Approval:

1. 26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
2. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63, Boise River.
3. 01J Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.

IDAHO DEPARTMENT OF WATER RESOURCES
Water Permit 63-33341

8/25/2016

4. X27 This right is limited to the irrigation of 27 acres within the authorized place of use in a single irrigation season.
5. 170 To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below. Moreover, the official record for the following water right will be changed to show that diversion and use of water is not authorized because the rights, or portion thereof, are being dedicated to mitigation purposes.

Right No.	Use Changed to Mitigation Irrigation	Mitigation Rate (cfs)	Mitigation Volume (AF)	Mitigation Acres
63-243G		0.54	121.5	27

The land that will no longer be irrigated under this right is located within the authorized boundary of the South Boise Mutual Irrigation Company Ltd.

If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this right approval shall be reduced by the same proportion as the reduction to the mitigation rights.

6. R65 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
7. 206 Upon specific notification by the Department, this right shall be limited to the irrigation of a specific 27 acres within the 63 acre place of use authorized by this right in a single irrigation season. If required, the specific 27 acres to be irrigated by the right holder shall be identified prior to use by submittal of a land list and a representative electronic shape file or by submittal of a land list and a map sufficiently detailed to allow creation of an electronic shape file to be associated with this right in the geographic information system component of the water rights database maintained by the department. If required, before changing the 27 acres to be irrigated within the 63 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
8. 004 This right does not grant any right-of-way or easement across the land of another.
9. X59 This right is diverted through the Walling Ditch.
10. X60 Place of use is Marianne Williams Park.
