CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **September 01, 2021**.
2. Subject to all prior water rights.
3. Rights 47-4294 and 47-17656 when combined shall not exceed a total diversion rate of 7.00 cfs.
4. This right shall be junior and subordinate to future water rights authorizing the diversion and use of water from the Snake River and its tributaries, including ground water, for consumptive uses, except that this right shall not be subordinate to future water rights for similar wildlife, recreation and/or aesthetic uses.
5. The 2 ponds established by the storage of water under this right shall not exceed a total capacity of 24.0 acre-feet or a total surface area of 4.0 acres.
6. Right 47-17656 authorizes the storage of an annual total of 617.0 acre-feet, 24.0 acre-feet to be used for the initial filling or carryover storage of the ponds and 593.0 acre-feet for the replacement of losses due to seepage and evaporation.

State of Idaho
Department of Water Resources

Permit to Appropriate Water

NO. 47-17656

7. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
8. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below. Moreover, the official record for the following water right will be changed to show that diversion and use of water is not authorized because the rights, or portion thereof, are being dedicated to mitigation purposes.

Right No.	Use Changed to Mitigation	Mitigation Rate (cfs)	Mitigation Volume (AF)	Mitigation Acres
47-4294	Irrigation	0.08	N/A	3.9

The land that will no longer be irrigated under this right is located within the Government Lot 6 (SWSE), Section 17, Township 09S, Range 16E, B.M.

If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this right approval shall be reduced by the same proportion as the reduction to the mitigation rights.

9. Noncompliance with any condition of this right, including the requirement for mitigation, is cause for the director to issue a notice of violation, cancel or revoke the right, or, if the right is included in a water district, request that the watermaster curtail diversion and use of water.
10. This right is for the use of trust water, and it is subject to review 5 years after its initial approval (date of permit approval) to re-evaluate the availability of trust water for the authorized use and to re-evaluate the public interest criteria for reallocating trust water.
11. Use of water pursuant to this right is either nonconsumptive or the right holder is required to provide ongoing mitigation to offset the depletion of water resulting from the use of this right. Regulation of this right to satisfy the minimum stream flow water rights in the Snake River at Murphy Gage shall not be required.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 18th day of August, 20 16.

RE: Permit No. 47-17656

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit. Please note that water right number 47-4294 has been modified to reflect mitigation purposes. A computer generated report is enclosed for your records.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-736-3033.

Sincerely,

A handwritten signature in black ink, appearing to read "Corey Skinner". The signature is fluid and cursive, with a large initial "C" and a long, sweeping underline.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Additional Information in Support of Application for Water Right Permit
47-17656; Canyon Springs LLC.

Dear Jana,

This letter serves as a formal response filed on behalf of Canyon Springs LLC to an April 29th 2016 letter from IDWR requesting additional information in connection with the public advertisement of water right permit 47-17656. Please see the responses to the rules below in conjunction with processing and approval of water right permit 47-17656.

Rule 040.05.c and Idaho Code, Section 42-203A(5)(a) Information relative to the effects on existing water rights:

- i. Does not apply, no other water rights points of diversion are the spring source listed on the applicant's permit application.
- ii. Does not apply, permit application names surface water source.
- iii. Does not apply, permit seeks uses other than irrigation.

Rule 040.05.d and Idaho Code, Section 42-203A(5)(b) Information relative to sufficiency of water supply:

- i. Permit seeks the diversion of up to 7.0 cfs of water already appropriated under 47-4294. 617.0 acre-feet of water are estimated to be required to account for the storage within the ponds and evaporation and seepage from the two existing ponds. See memo associated with pond permit application submittal.
- ii. See memo associated with pond permit application submittal. Up to 7.0 cfs of spring flow authorized under 47-4294 is proposed to be routed through two existing ponds. Basis for 7.0 cfs flow rate through ponds is associated with SRBA partial decree of 47-4294. Actual discharge routed through ponds described in permit 47-17656 will depend on and may be limited by the discharge emitting from existing springs associated with 47-4294.

Rule 040.05.e and Idaho Code, Section 42-203A(5)(c) Information relative to good faith, delay, or speculative purposes of the applicant:

- i. Does not apply, applicant owns land on which point of diversion is located.
- ii. Does not apply, no additional permits are required for completion of the water development project.

Rule 040.05.f and Idaho Code, Section 42-203A(5)(d) Information relative to financial resources:

- i. Does not apply, two ponds associated with water right permit 47-17656 have already been constructed and are complete.
- ii. Does not apply, two ponds associated with water right permit 47-17656 have already been constructed and are complete.

Rule 040.05.g and Idaho Code, Section 42-203A(5)(e) Information relative to conflict with the local public interest:

- i. Proposed permit is within the public interest and provides habitat for birds and other animals that frequent the Snake River corridor. 3.9 acres of 47-4294 are proposed to be dried up to account for evaporation associated with the two existing ponds described in permit 47-17656; no expansion in consumptive use is sought nor will occur. Existing water right holders are not impacted by allowing the diversion of spring water already appropriated under 47-4294 into two existing ponds listed under 47-17656. Therefore, additional agency comment and or input is not required.

Please let me know if you have any additional questions regarding this permit application, thanks for your time.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 80835**

✓ JIM D SCARROW, 3184 S 1900 E, WENDELL, ID 83355, has filed Application No. 80835 for changes to the following water rights within GOODING County(s): Right No(s). 36-10446, 36-15094, 37-3155, 37-795, 37-796, 37-798. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes combining three Birch Creek rights (2.04 cfs), a South Fork of Birch Creek right (0.5 cfs), an unnamed stream right (0.09 cfs), and a wastewater right (0.61 cfs) to create a new 118.7 acre permissible place of use on a farm located approximately 2.2 to 2.6 miles north of the City of Hagerman. Existing diversions, plus two new proposed diversions for the wastewater right, will divert up to a total of 3.24 cfs for the irrigation of 48.6 acres within the new 118.7 acre permissible place of use to reflect current irrigation practices.

Permits will be subject to all prior water rights. For additional information concerning the property locations, contact Southern Region office at (208) 736-3033; or for a full description of the rights &/or proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. For additional information on new permits, please see www.idwr.idaho.gov/WaterManagement/WaterRights/#NewListings. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Southern Region, 650 Addison Ave W, Ste 500, Twin Falls, ID 83301 together with a protest fee of \$25.00 for each application on or before May 23, 2016. The protestant must also send a copy of the protest to the applicant.

Application proposes diverting up to 7.0 cfs from spring water for recreational, aesthetic and wildlife uses associated with existing ponds. Application also proposes to appropriate 617 AF for storage volume and evaporative and seepage losses associated with the same ponds. The springs and ponds are located approximately 5.0 miles north of Filer on the south side of the Snake River. A mitigation plan is included with the application.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 80835**

JIM D SCARROW, 3184 S 1900 E, WENDELL, ID 83355; has filed Application No. 80835 for changes to the following water rights within GOODING County(s): Right No(s). 36-10446, 36-15094, 37-3155, 37-795, 37-796, 37-798. The purpose of the transfer is to change a portion of the above rights as follows: Application proposes combining three Birch Creek rights (2.04 cfs), a South Fork of Birch Creek right (0.5 cfs), an unnamed stream right (0.09 cfs), and a wastewater right (0.61 cfs) to create a new 118.7 acre permissible place of use on a farm located approximately 2.2 to 2.6 miles north of the City of Hagerman. Existing diversions, plus two new proposed diversions for the wastewater right, will divert up to a total of 3.24 cfs for the irrigation of 48.6 acres within the new 118.7 acre permissible place of use to reflect current irrigation practices.

Permits will be subject to all prior water rights. For additional information concerning the property locations, contact Southern Region office at (208) 736-3033; or for a full description of the rights &/or proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. For additional information on new permits, please see www.idwr.idaho.gov/WaterManagement/WaterRights/#NewListings. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Southern Region, 650 Addison Ave W, Ste 500, Twin Falls, ID 83301 together with a protest fee of \$25.00 for each application on or before May 23, 2016. The protestant must also send a copy of the protest to the applicant.
