STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

Ident. No. 95-17185

1. Name of applicant(s) Lutherhaven Ministries Phone 208-667-3459
 Name connector (check one): ☐ and ☐ or ☐ and/or
 Mailing address 3258 W Lutherhaven Road Email _____
2. Name of representative, if any Necia Maiani Phone 208-664-9382
 Mailing address 350 E Kathleen Ave Email nmaiani@welchcomer.com
- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☒ Send original correspondence to the applicant and copies to the representative.
- b. ☒ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation providing authority to sign for the applicant.
3. Source of water supply Groundwater which is a tributary of Coeur d'Alene Lake
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
49N	4W	11	5				Kootenai	Groundwater	

5. Water will be used for the following purposes:
- Amount 0.07 for Municipal purposes from 1/01 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)
6. Total quantity to be appropriated is (a) 0.07 cubic feet per second (cfs) and/or (b) 14.6 acre-feet per year (af).
7. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. Owner will construct one 6-inch well casing, with a 30gpm well pump.
- b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No
- c. Proposed well diameter is 6 inches; proposed depth of well is 100 feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? N/A; drilling firm N/A;
 well was drilled for (well owner) N/A; Drilling Permit No. N/A

For Department Use

Received by [Signature] Date 8/1/16 Time _____ Preliminary check by _____
 Fee \$ 100.00 Received by [Signature] Receipt No. N032080 Date 8/1/16

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in kW. N/A
 - Stockwatering; list number and kind of livestock. N/A
 - Municipal; must complete and attach the Municipal Water Right Application Checklist.
 - Domestic; show number of households N/A
 - Other; describe fully. N/A
9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols. Refer to Attached Spreadsheet

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

Total number of acres to be irrigated: _____

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? 95-11027, 95-11028
11. a. Who owns the property at the point of diversion? Lutherhaven Ministries
b. Who owns the land to be irrigated or place of use? Lutherhaven Ministries
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____
12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Lutherhaven Ministries is seeking additional water right due to available source capacity from two existing groundwater wells. Proposed well will be located adjacent to Coeur d'Alene Lake (approximately 100 ft). The proposed well will comply with the IDWR surface seal requirements due to the proximity to the Lake.
13. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
MUNICIPAL WATER RIGHT APPLICATION CHECKLIST
FOR AN APPLICATION TO APPROPRIATE WATER FOR MUNICIPAL PURPOSES

An application to appropriate water for municipal purposes must be prepared in accordance with the requirements listed below to be acceptable for processing by the Department. There are two types of permits for municipal water use. The first type of municipal permit provides water for reasonably anticipated future needs (RAFN) over a defined planning horizon.¹ The second type of municipal permit, called non-RAFN, provides water solely for use to meet needs that will arise in the near-term (five years).² A **non-RAFN** permit may have an annual volume limitation associated with it. Each type of municipal water use has a distinct set of review requirements.

Applicant Name: Lutherhaven Ministries

1. Type of Municipal Provider. Applicant must qualify as a Municipal Provider to obtain a municipal water right. See Idaho Code § 42-202B (5). Check one:

- ☐ Type 1 – Municipality
☐ Type 2 – Franchise or political subdivision supplying water to a municipality
☒ Type 3 – Corporation or association regulated as a “public water supply” system by IDEQ
☐ Attach documentation of qualification as a Municipal Provider. See Idaho Code § 42-202(2).

2. List existing Water Rights (permits, licenses, decrees, and beneficial use claims) available to the applicant for municipal needs. These rights may or may not have a purpose of use expressly defined as “municipal”. Include a separate attachment as needed.

Right Number	Nature of Use	Diversion Rate (cfs)	Annual Vol. (acre-feet)	Service Area
<u>95-11027</u>	<u>Municipal</u>	<u>0.14</u>	<u>14.6</u>	<u>Refer to Attached Map</u>
<u>95-11028</u>	<u>Domestic</u>	<u>0.04</u>		<u>Refer to Attached Map</u>
<u>(new)</u>	<u>Municipal</u>	<u>0.07</u>	<u>14.6</u>	<u>Refer to Attached Map</u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

3. List the total diversion rate from Item 2. Be sure to account for any combined diversion rate limits in the approval conditions of each right listed. 0.14 CFS (total from 2)
4. List the total volume from Item 2. Be sure to account for any combined volume limits in the approval conditions of each right listed. 14.6 AF (total from 2)

¹ For a thorough discussion of RAFN water rights, see IDWR’s *Recommendations for the Processing of Reasonably Anticipated Future Needs (RAFN) Municipal Water Rights at the Time of Application, Licensing, and Transfer*.

² For a thorough discussion of non-RAFN water rights, see IDWR’s Application Processing Memorandum No. 18.

5. Planning Horizon. See Idaho Code § 42-202B (7). Check one:

- ☐ RAFN. Specify planning horizon: ____ years. Go to Item 6.
☒ Non-RAFN (≤5 years). Go to Item 7.

6. If application is for RAFN:

- ☐ Attach justification for planning horizon. See Idaho Code § 42-202(2) and § 42-202B(7).
☐ Attach description of service area. See Idaho Code § 42-202(2) and § 42-202B(9).
☐ Attach population projection within the service area over the planning horizon. See Idaho Code § 42-202(2) and § 42-202B(8).
☐ Attach evaluation for demand within the service area over the planning horizon. See Idaho Code § 42-202(2) and § 42-202B(8).

Does demand exceed the totals listed in Items 3 and 4?

Y N

- ☐ ☐ Rate?
☐ ☐ Volume?

If the answer is “No” to both rate and volume and a new point of diversion is needed, file a transfer application pursuant to Idaho Code § 42-222(1).

7. If application is for non-RAFN:

When submitting proof of beneficial use, non-RAFN permit holders will be required to show that water was diverted for an additional increment of beneficial use over existing water rights during the authorized development period, which may be up to five years from the date of approval. Do existing demand and short term needs exceed the combined authorizations from the existing water rights listed in Items 3 and 4?

Y N

- ☐ ☒ Rate?
☐ ☒ Volume?

If the answer is “No” to both rate and volume and a new point of diversion is needed, file a transfer application pursuant to Idaho Code § 42-222(1).

Subject: Application for Permit No. 95-17177, 95-17178, 95-17179, 95-17185, 95-17186
Attachments: LegalNotice 08-10-16 CDA e-mail 95-17177, 78, 79, 85, 86.doc

Hi, Holly,

Please publish the enclosed legal notice in the Coeur d'Alene Press on the dates indicated, August 18 and 25, 2016 (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

This, to, should be very close to press ready – for 2-column, 8pt, Century Old Style font.. It might be close enough to just copy and paste, with very little if any modification required.

Please note the area(s) under **USE** containing dates and water amounts that are offset and lined up. Our legal should appear in this format.

Please also provide a proof/preview copy for my review before this actually goes to press. That way I can double check my work as well as checking layout.

If you have any questions, please contact me as early as possible.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 9/6/2016. Your cooperation is appreciated.

Once again, I want to thank you for all you do to help make our legals look great.. It's a pleasure working with you.

Application For Permit No. 95-17185

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 8/18/2016 and 8/25/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Adam Frederick

Necia,

The Department has received the application for permit for Lutherhaven Ministries. In order to support the source of groundwater tributary to surface water, as we discussed during your visit to the office, could you please submit a copy of the well design and paperwork submitted to DEQ in support of the project? An email copy would work.

Thanks,

Morgan

RECEIVED
AUG 08 2016
IDWR / NORTH

Subject: Camp Lutherhaven (PWS #1280029), Plans and Specifications for Well No. 3 Construction – DEQ Approval

Dear Mr. Meyer:

The Idaho Department of Environmental Quality (DEQ) has reviewed documents submitted by Steven Cordes, P.E. of Welch-Comer Engineers for the project titled Camp Lutherhaven Well No. 3, dated July 15, 2016 (P&S #13056). The following documents were included in the submittal:

1. An addendum to the preliminary engineering report (PER) submitted to this office on March 2, 2016. The addendum was prepared to address DEQ comments prepared in a letter dated April 8, 2016.
2. Plans and specifications to construct an 8-inch steel ground water source well approximately 100 feet below ground surface. DEQ approved the well site evaluation in a letter dated June 9, 2016. The well will initially include an annular seal of 58 below ground surface; however, a seal depth less than 58 feet has been proposed. The well production rate will be limited to 20 gallons per minute based on the anticipated filtration operating requirements discussed in the preliminary engineering report. The submittal does not include the discharge piping between the proposed ground water source well and the future filtration and disinfection system.

The preliminary engineering report and the addendum have been reviewed and are hereby approved in accordance with the Idaho Rules for Public Drinking Water Systems.

The plans and specifications are hereby conditionally approved for construction of the new ground water source well per the Idaho Rules for Public Drinking Water Systems (Idaho Rules) and Section 39-118 of Idaho Code contingent upon the following:

Well Casing Thickness - The permanent well casing thickness shall meet the minimum requirements per IDAPA 58.01.08.900.02. For an 8-inch diameter well casing, the required thickness shall be 0.322 inches; a 6-inch casing, the required thickness shall be 0.280 inches. More stringent standards required by the Idaho Department of Water Resources (IDWR) may apply.

Annular Seal - The design engineer shall submit documentation to DEQ demonstrating that an alternative annular seal less than 58 feet below ground surface is adequate per IDAPA 58.01.08.510.03.b and that more stringent standards are not required by IDWR.

Piping, Appurtenances and Treatment Systems – Plans and specifications for the well discharge piping, applicable appurtenances (Section 511), and the filtration and disinfection treatment shall be submitted to DEQ for review and approval prior to construction of those items.

Well Completion Report – The design engineer must submit a well completion report to DEQ upon completion of the well drilling per IDAPA 58.01.08.510.05. This report must include the following items:

- A copy of the well log;
- Results of the pump testing per IDAPA 58.01.08.510.06. For additional information and guidance on test pumping, please refer to the Guidance for New Source Water Testing Procedures for Public Drinking Water Systems. That guidance is available online at: http://www.deq.idaho.gov/media/515237-source_water_testing_procedures_guidance.pdf
- Results from the water quality sampling (refer to the approved well site evaluation letter dated June 9, 2016);
- Plans and specifications for the installation of the pump and screen; and,
- Record drawings demonstrating compliance with the Rules regarding the well design standards per IDAPA 58.01.08.511.

Surface Water Protection – Please ensure that surface water runoff is contained and does not discharge to Coeur d’Alene Lake. It is recommended to contact June Bergquist with the DEQ Coeur d’Alene office (208-666-4605) to discuss options for properly disposing of the pump test water.

Microscopic Particulate Analysis (MPA) – It is DEQ’s understanding that the purveyor plans to treat this source well as a ground water under the direct influence of surface water source at this time. Filtration and disinfection treatment will be provided per the Idaho Rules. As such, DEQ will waive requirements to have the well undergo an MPA at this time.

IDWR Permits - The system will need a “Permit to Appropriate Water” and “Drilling Permit” from Idaho Department of Water Resources (IDWR) before construction can begin. Copies of these permits should be submitted to this office with the record drawings.

If any material deviations to this accepted design are necessary, the design engineer must secure DEQ approval of the changes prior to implementation of the changes.

Within thirty (30) days of completion of construction, Section 39-118(3) of Idaho Code requires that record plans and specifications based on information provided by the construction contractor and field observations made by the engineer or the engineer's designee be submitted to DEQ. The record drawings must depict the actual construction of facilities. The record drawing submittal must be made to DEQ by the engineer representing the public agency or regulated public utility, if the resultant facilities will be owned and operated by a public agency or regulated public utility; or by the design engineer or owner designated substitute engineer, if the

Steve Meyer / Lutherhaven Ministries / Well No. 3 Plans and Specifications
July 25, 2016
Page 3

constructed facilities will not be owned and operated by a public agency or regulated public utility. Such submittal by the professional engineer must confirm material compliance with the approved plans or disclose any material deviations therefrom.

If construction is not completed within one year of the date of this letter, the DEQ construction approval expires. An extension may be granted if the design engineer submits a written request that DEQ re-approve the plans and specifications.

Please feel free to contact if there are any questions by phone at 666-4611 or email chris.westerman@deq.idaho.gov. Thank you.

Sincerely,

Chris Westerman, E.I.T.

protec

Dear June and Kiira:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application is enclosed for your reference.

Although this is a ground water source, due to the close proximity to, as well as tributary to Lake Coeur d'Alene, ~ thought you might be interested in this application.

This is scheduled for publication in the Coeur d'Alene Press on August 18 and 25, 2016 with September 6 as final date for protests to be received in our office.

Your prompt response to this request is appreciated. If your agency desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact Adam Frederick in this office if you have any questions regarding the application.

Sincerely,

Dianne Ball
