RE: Phone conversation with the permit holder

This morning I returned a call to Gary Skeen at 208-859-0496. He recently received both a proof due notice and a lapse notice, and he wondered why. I explained that the lapse notice is for his irrigation permit, 65-23446, and the proof due notice is for his stock pond permit, 65-23447.

Mr. Skeen told me he has irrigated some of the three acres authorized by Permit 65-23446, but not all of it. I explained that he could seek reinstatement of his permit within 60 days of its lapsing by submitting proof of beneficial use for the acreage he has irrigation or by submitting a request for extension of time. Mr. Skeen said he would likely file an extension request this week.
