1. Name of applicant(s) Ronnie Weekes Phone (208) 365-9033
Name connector (check one) ☐ and ☐ or ☐ and/or
Mailing address PO Box 53 City Letha
State Idaho Zip 83636 Email raweekes3@hotmail.com

2. Source of water supply Unnamed Flume, GPS location listed which is a tributary of Lower Payette River

3. Location of point(s) of diversion: WASTE WATER R.W. PAYETTE RIVER R.W.

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
7N	3W	34			NW	NW	Gem	Unnamed Flume	116°41'31.662"W
				R.W.	SW				43°54'16.181"N
				AU					

4. Water will be used for the following purposes:

Amount 1.02 cfs for Irrigation Purposes purposes from Apr. 1 to Nov. 15 (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 1 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. 10" pipe in flume will feed 60" Bubbler Structure and 25 HP pump.

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No

e. If well is already drilled, when? _____; drilling firm _____;
well was drilled for (well owner) _____; Drilling Permit No. _____.

7. Description of proposed uses (if irrigation only, go to Item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; complete and attach the Municipal Water Right Application Checklist.

d. Domestic; show number of households _____

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
7N	3W	34					2	39	10										51

Total number of acres to be irrigated: 51

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

Water Right 65-53a, Reed Ditch, is used to irrigate this property, 91 acres total. Water is hard to convey to the west end of the property. The flume provides a better location to pump water for planned pivot irrigation system.

10. a. Who owns the property at the point of diversion? Ronnie Weekes - applicant
- b. Who owns the land to be irrigated or place of use? Ronnie Weekes - applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Would like to pump out of unnamed flume for planned pivot sprinkler irrigation system. Water is hard to convey with the current water right/diversion from the Reed Ditch to the west side of the property. The system is designed with a 25 HP pump at 400 gpm.

12. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 65-23645

Dear Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. A copy of the application is enclosed with this email for your reference. Please review the application, complete a recommendation form, and submit your reply, if any, to this office by September 6, 2016.

IDWR will assume you do not object to this application if a timely response is not received. Please contact me if you have any questions in this matter. Thank you for your help.

Sincerely,

Rachel Neely

Application for Permit No. 65-23645

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the MESSENGER INDEX on 8/17/2016 and 8/24/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Rachel Neely

Re: Application for Permit 65-23645 - Additional Information Request

Dear Applicant:

You recently filed a water right application with the Idaho Department of Water Resources (IDWR) proposing to divert waste water for irrigation use. IDWR must determine if the water you wish to appropriate is waste water available for appropriation or whether it is "live" water under control of an irrigation delivery organization to satisfy downstream users. The irrigation organization(s) in your area appears to be Reed Ditch Co., Noble Ditch Co. and/or Lake Reservoir Co.

The waste water status in your area can be determined by providing written consent from the correct irrigation delivery organization confirming if the water does nor does not remain under its control for other users. Also, please provide written confirmation of a right-of-way to use the waste ditch or waste drain if that conveyance is owned by the organization or by some other person or entity.

Additionally, the proposed point of diversion appears to be very close to if not the same as the point of diversion authorized for right 65-11268A in the name of Evelyn Arreguy. Please submit information confirming you intend to use the same diversion point (ditch, pump, etc.) as 65-11268A or if you intend to install your own unique diversion point from the waste water ditch.

While gathering the above information, the Department will publish your application in the local newspaper to continue with processing. However, a final determination will not be issued for this application until the above requested information is submitted. **Please provide the requested information within thirty (30) days. You may request up to six months of additional time if necessary. You may withdraw the application by returning the enclosed withdrawal form if you prefer. The application will be voided without a timely written response. Refunds are not issued for published or voided applications.**

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to these matters.

Sincerely,

Angela M. Grimm, P.G.
Water Rights Supervisor

Subject: application for no. 65-23645

Mr. Weekes,

I have been assigned to process your application for permit to irrigate 51 acres just outside of Letha. A couple items I wanted to clarify/confirm with you:

On your application the source is listed as an "unnamed flume" tributary to the "Lower Payette River." To conform with Department data standards, the source would be more appropriately described as "waste water" tributary to the "Payette River."

The location for the point of diversion listed on the application is the **NWNW** of Section 34 T7N R3W. Looking at the map you provided with your application, it appears the location should be the **SWNW** of Section 34 T7N R3W. It looks like the diversion you are proposing may be the same location as water right 65-11268A, or be nearby. 65-11268A is a waste water sourced right. See the attached pdf of a quick map I made to help illustrate.

In order to move your application along, can you please confirm what I explained above is either correct or incorrect. Please don't hesitate to give me a call or email if you have any questions.
