Water will be used for the following purposes:

Amount 2 cfs for IRRIGATION purposes from 3/1 to 11/15 (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 2.1 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).

6. Proposed diverting works: RD CD

a. Describe type and size of devices used to divert water from the source. PUMP

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No

e. If well is already drilled, when? _____; drilling firm _____;
well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; complete and attach the Municipal Water Right Application Checklist.

d. Domestic; show number of households _____

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS

Application for Permit No. 3-10282

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the WEISER SIGNAL on 8/17/2016 and 8/24/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Rachel Neely
Administrative Assistant

Dear Ms. Clark:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendation(s) from your agency regarding the above referenced water right application(s). Copy(s) of the application(s) are enclosed with this email for your reference. Please review the application(s), complete the enclosed recommendation form, and submit your reply, if any, to this office by the protest deadline of September 6, 2016.

If your agency desires to formally protest approval of this application, you may do so by filing a written protest along with a \$25.00 filing fee for each protested application by the protest deadline.

IDWR will assume your agency does not object to this application if a timely response is not received. Please contact me if you have any questions regarding the application. Thank you for your help.

Sincerely,

Rachel Neely

Attn: Patrick Kelly

RECEIVED
JUL 29 2016
WATER RESOURCES
WESTERN REGION

In response to your letter Dated June 20, 2016, please consider the following:

We are NOT adding any pumps (points of diversion); we are simply using and planning to use the existing pumps to water the ground that we will clear.

We have indicated on the map with an "X" the locations of the existing pumps.

We have corrected Part 3 to identify the location of the points of diversion.

We have corrected Part 8 to identify the place of use.

We have marked the map with a black line to indicate approximately the 5-acre area that will be cleared of scrub brush and put into crop production, using the existing pumps and water.

Sorry for our errors; and thank you for your assistance.

Very truly yours,

Robert & Carol Doberstein

RE: Amendment Required for Application 67-15158 & 67-15159

Dear Applicant,

In May and June of 2016, you filed two applications for permit to appropriate water for an irrigation use in Section 8, Township 10 North, Range 5 West. After review of the document an amendment is required to complete the application process.

The 0.20 cfs diversion requested from the Snake River in application 67-15159 exceeds the diversion rate per acre limit on 5 acres. A 5 acre parcel may receive up to 0.10 cfs, unless the applicant provides information that justifies an increased rate per acre.

Ground water application 67-1558 for 16 acres is requesting a total diversion of 0.08 cfs. 16 acres may receive as much as 0.32 cfs when combined with all other rights, and it is recommended you increase the diversion rate. An application for 0.32 cfs would require an additional fee of \$150, however you may apply for up to 0.20 cfs without further fee requirements.

Please make the appropriate amendments and submit them for the applications to be processed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov.

Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Respectfully,

Patrick Kelly

RE: Map Required for Application 3-10282

Dear applicant,

Application for permit 3-10282 requires a map that identifies the Point(s) of Diversion for the proposed development. I have included a copy of the map that was included with your application. Please clearly mark where the pumps are proposed to be located. Also, please note the Place of Use by drawing a 5 acre shape to represent the acres associated with the application. Once this is completed, please make certain that the legal description on the map matches what is described on the application in parts 3 & 8. Note that in part 3, the middle $\frac{1}{4}$ identifies the 40 acre tract and the right $\frac{1}{4}$ identifies the 160 acre quarter. For purposes of this application, the left $\frac{1}{4}$ of part 3 will remain blank, as you have described. The table associated in Part 8 is organized with the 160 acre $\frac{1}{4}$ described by the top row, the 40 acre described below.

Please submit the requested information for the application to be processed. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov.

Please contact me at 208-334-2190 with any questions you might have. Thank you for your attention to these matters.

Respectfully,

Patrick Kelly
Water Resource Agent
